Google Health	1	Healthcare	WW	SP	Google				http://www.google.com/health/					Awareness of TAS3 Sponsorship of Maastricht event		12/8/0209		Google Health puts you in charge of your health information. It's safe, secure, and free.	Google Health is the latest entrant in the growing field of companies offering personal health records on the Web. Their ranks range from longtime online health services like WebMD to the software powerhouse Microsoft to start-ups like Revolution Health. The companies all hope to capitalize eventually on the trend of increasingly seeking health information online, and the potential of Internet tools to help consumers manage their own health care and medical spending.Google is also looking for strategic partners who can help users get access to their medical records and prescription history and do a better job of managing their health needs.
HealthVault	1	Healthcare	WW	SP	Microsoft				http://www.healthvault.com/					Awareness Sponsorship		12/1/2008		Microsoft® HealthVault™ is designed to put you in control of your health information.	
NSTS (NHS Strategic Tracing Service Security Policy)	1	Healthcare	UK	Security service					http://www.connectingforhealth.nhs.uk/systemsandservices/nsts/secu									The NSTS Security Policy provides a framework for securing information held on the NHS Strategic Tracing Service database. It is based upon an appraisal of the main threats to the security of the NSTS and covers the key elements of confidentiality, availability, integrity, and physical and environmental security.Compliance with the NSTS Security Policy is mandatory. Organisations approved to use NSTS have to sign a Data Access Agreement that affirms compliance with the NSTS Security Policy.	
Monster	1	Employment	WW	Job Board					http://www.monster.frigeo/siteselection.asp									The world's leading career network. Worldwide database for job offers and job seekers.

Digital Identity World Magazine	Generic	PR	http://magazine.digitalidworld.com/	A magazine providing comprehensive, in-depth information and perspective on the entire digital identity industry.		
Card Technology	Hardware		http://www.cardtechnology.com/	Source for news about smart cards and such related payment and identification technologies as biometrics, PKI, mobile commerce, physical access control and computer network security.		
Information Security Technical Report	Generic	PR	http://www.sciencedirect.com/science/journal/13634127	Information Security Technical Report is a quarterly technical report, focused on a specific topic. It is aimed at senior information security managers, who need to gain a better understanding of current information security issues and solutions, and provides 'off-the shelf' consultancy from professional researchers and practitioners. The main objective of the report is to provide a balanced, impartial, up to date, and authoritative view of specific topics within the information security arena. The report is a joint venture between Elsevier and the Information Security Group at Royal Holloway, University of London.		
Privacy Times	Generic	PR	http://www.privacytimes.com/	Privacy Times is the leading Subscription-only newsletter Covering privacy & Freedom of Information Law And policy. It is read largely by attorneys and professionals who must stay abreast of the legislation, litigation, and executive branch activities, as well as consumer news, technology trends and business developments. Since 1981, Privacy Times has provided its readers With accurate reporting, objective analysis and thoughtful insight into the events that shape the ongoing debate over privacy and Freedom of Information.		
Security and Privacy	Generic	PR	http://www.computer.org/portal/site/security/	The primary objective of IEEE Security & Privacy is to stimulate and track advances in information assurance and security and present these advances in a form that can be useful to a broad cross-section of the professional community-ranging from academic researchers to industry practitioners. It is intended to serve a broad readership.		
Journal of Computer Security	Generic	PR	http://www.mitre.org/public/jcs/	The Journal of Computer Security presents research and development results of lasting significance in the theory, design, implementation, analysis, and application of secure computer systems and networks. It will also provide a forum for ideas about the meaning and implications of security and privacy, particularly those with important consequences for the technical community. The Journal provides an opportunity to publish articles of greater depth and length than is possible in the proceedings of various existing conferences, while addressing an audience of researchers in computer security who can be assumed to have a more specialized background than the readership of other archival publications.		
Post Identity	Non technical	PR	http://liberalarts.udmercy.edu/pi/	Post Identity, an international, fully-refereed journal of the humanities, publishes scholarship that examines the narratives underlying individual, social, and cultural identity formations; that investigates the relationship between identity formations and texts; and that argues how such formations can be challenged.		
Identity	Non technical	PR	http://www.ssc.uwo.ca/sociology/identity/	IDENTITY is the official journal of the Society for Research on Identity Formation. This cutting-edge peer-reviewed journal is published by Lawrence Erlbaum Associates and is subsidized with grants from the Faculty of Social Science at the University of Western Ontario and the College of Arts and Science at Florida International University.		
Self and Identity	Non technical	PR	http://www.tandf.co.uk/journals/titles/15298868.asp	Work on self and identity has a special place in the study of human nature, as self-concerns are arguably at the center of individuals' striving for well-being and for making sense of one's life. Life goals develop and are influenced by one's view of what one is like, the way one would ideally like to be (or would like to avoid being), as well as one's perceptions of what is feasible. Furthermore, conceptions of self and the world affect how one's progress towards these goals is monitored, evaluated, redirected, re-evaluated, and pursued again. Thus, the “self” as a construct has far-reaching implications for behavior, self-esteem, motivation, experience of emotions and the world more broadly, and hence for interpersonal relationships, society, and culture.

International Journal of Medical Informatics	Healthcare	PR	http://ijmijournal.com/home	The International Journal of Medical Informatics is the official journal of the European Federation for Medical Informatics (EFMI), European Regional Council of the International Medical Informatics Association (IMIA).		

Name	Theme	Start date	End date	City	St	Country	link	About										
European Identity Conference 2008		22-Apr-2009	25-May-2008				http://www.id-conf.com/eic2008		Marc & Sampo presents									
The Single Sign-On Summit		23-Jul-2008	25-Jul-2008	Keystone	CO	USA	http://www.ssosummit.com/	The goal of the event is to give IT and line-of-business personnel the knowledge they need to rapidly and successfully deploy single sign-on. The conference content will emphasize real-world case studies, war stories and implementation best practices. Sessions will include a mix of presentations and collaborative discussions among SSO practitioners.										
Digital ID World		8-Sep-2008	10-Sep-2008	Anaheim	CA	USA	http://conference.digitalidworld.com/2008/	Digital ID World is your source for the straight talk, hard-won lessons, and practical insight derived from real-world deployments. Our focus is simple: putting enterprise IT professionals onstage to give you their unvarnished views on what it took to achieve success with their identity deployments. Digital ID World is the industry event for learning how to help manage your business with identity.										
23rd International Information Security Conference		8-Sep-2008	10-Sep-2008	Milano		Italy	http://sec2008.dti.unimi.it/	(Milan, Italy) In particular, topics of relevance include topics in the "Identity Management" area...										
Catalyst		20-Oct-2008	23-Oct-2008	Prague		CZ	http://www.catalyst.burtongroup.com/EU08/index.html	In the IdM sessions: * Placing IdM projects in their proper business context * How to use domain-centric products like Microsoft SharePoint in a multi-domain environment * Which authentication products and practices to standardize on * How to make roles projects effective * How the IdM market will change over the next year * How social style will replace command/control for IdM vendors										
Gartner Identity and Access Management Summit		10-Nov-2008	12-Nov-2008	Orlando	FL	USA	http://www.gartner.com/it/page.jsp?id=633107	Identity theft. Unauthorized access to sensitive systems, data, credit cards, trade secrets ... exposed in a flash. The Gartner Identity & Access Management Summit is designed to help organizations address the growing exposure that IAM inefficiencies and lapses create.										
European Identity Conference 2009	IAM	5-May-2009	8-May-2009	Munich		DE	http://www.id-conf.com/eic2009	With more than 450 attendees from 23 countries, EIC is a major platform in Europe to create, support and foster the dialog between GRC and identity management thought leaders and users, but as well between thought leaders themselves, between Europeans and Americans, vendors, vendor partners and users, between open source initiatives and the market.									Presente paper at 2008 conference: done Present paper at 2009 conference	4/30/2009
7th Internet Identity Workshop	IAM	10-Nov-2008	12-Nov-2008	Mountain View		USA		Identity Commons										
EFMI STC 2008		9-Sep-2008	11-Sep-2008	London		UK	http://www.chirad.info/efmi_stc	The conference will explore the current and future issues related to open source in healthcare. In particular, there will be a focus on health records, ubiquitous computing, knowledge sharing, and current and future applications.										
The World of Health IT 2008 Conference & Exhibition		4-Nov-2008	6-Nov-2008	Copenhagen		DK	http://www.worldofhealthit.org/	The World of Health IT Conference & Exhibition has been designed for and by the healthcare IT community in the European region including: technology end users, vendors, providers and policy makers.
