[PANACEA](#) > [EN](#) > [Deliverables](#) > [List](#) > D6.5: Merged dictionaries

Merged dictionaries

D6.5 delivers a set of monolingual lexica for Spanish and Italian combining information from different sources and different domains. They are all published as **Multi-Domain Multi-Level Lexica** in the [Monolingual Lexica](#) page. [Click here](#) for details about the creation of these lexica. Extended explanation of the multi-domain merger used to create those lexica can be found in deliverable [D6.4](#).
