

Proposal number: 323945 **Acronym**: 3x3DImaging

Duration of the Project: 36 months
Strategic objective/theme: ICT-2013.9.2

Deliverable: D9.2

Work Package: WP9

Due Date: M3 (1/08/2013)

Delivery date: 30/08/2013

Version: 1.1

Leading Beneficiary: Femtonics

PM:2

Nature: R

Dissemination: PU

IMAGING

Proposal number: 323945 **Acronym**: 3x3DImaging

Duration of the Project: 36 months

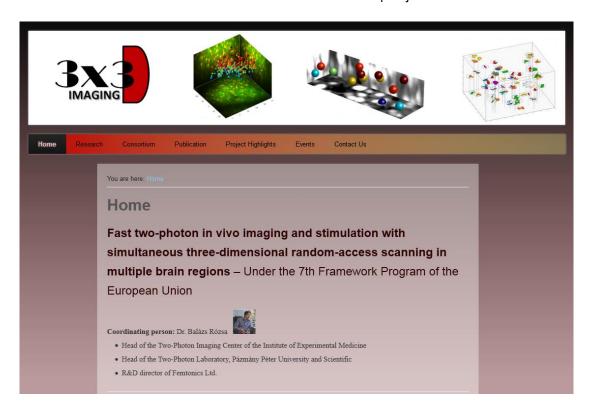

Strategic objective/theme: ICT-2013.9.2

Website of the 3x3Dimaging Project

Date: 30/08/2013

A new website was created for the 3x3Dimaging project during the negotiation phase: www.3x3Dimaging.eu

From the beginning of the project, we started to upload the scientific and technical information in concern with the project.

The website contains the following headings with the respective information:

HOME:

- we created a LOGO for the project:
- we uploaded the Consortium Leader/Participants names and LOGOs
- We included the project identification data
- A included the short description of the project
- we uploaded the FP7, EU and FET LOGOs on the beginning page

Under this section (HOME) we indicated two subsections:

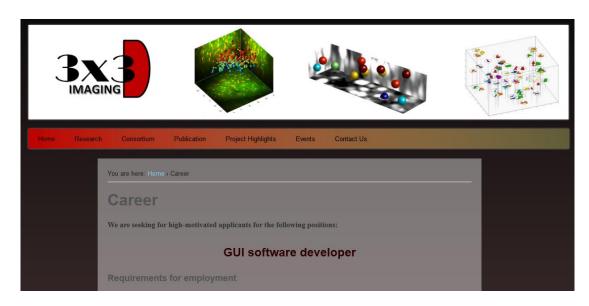

Duration of the Project: 36 months Strategic objective/theme: ICT-2013.9.2

NEWS:

- Under this topic we will upload all the major events that happen during the project. Currently, the Kick-Off Meeting is presented, since we are at the beginning of the project.
- Upcoming: First Executive Board Meeting

CAREER:

 the current positions related to the project are presented on the website:

Mechanical Engineer Postdoctoral Position

Duration of the Project: 36 months Strategic objective/theme: ICT-2013.9.2

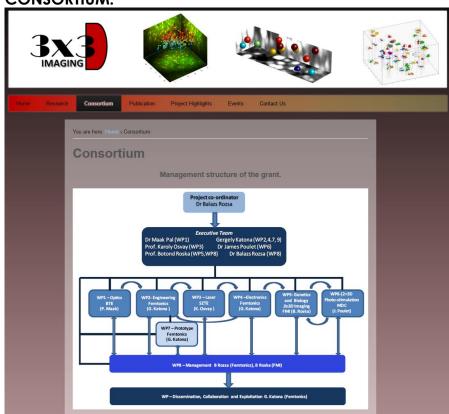

Graphic Designeer

RESEARCH:

• The research ideas in this project are under patenting. We will upload the major points of the project immediately after submitting the relevant patent application(s).

CONSORTIUM:

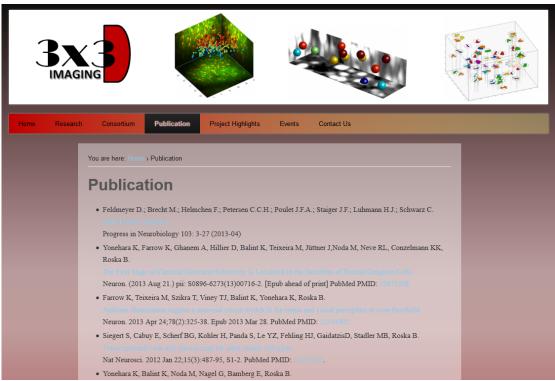

Duration of the Project: 36 months

Strategic objective/theme: ICT-2013.9.2

- Under this topic you can find the Management structure of the Grant and the location of the beneficiaries in Europe.
- We included information on the Consortium Leader, Femtonics and the beneficiaries: FMI, MDC, SZTE, BME.

PUBLICATION:

• Under this section we uploaded the recent publications related to the project from all beneficiaries.

PROJECT HIGHLIGHTS:

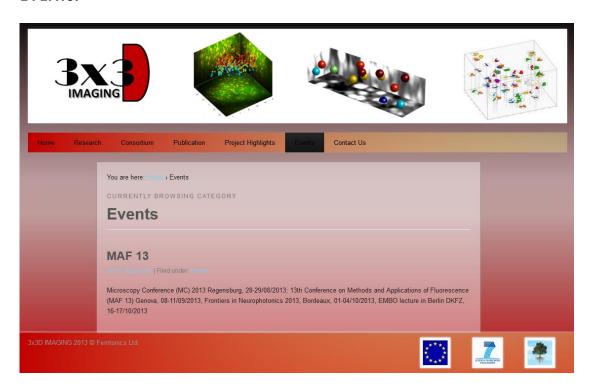

• This section is still under construction. After submittingthe project-related patent application(s) we will include the major Work Packages and tasks of the projects.

EVENTS:

• Under this section we listed the conferences where the beneficiaries will present their obtained scientific/technical results. Currently we listed the conferences until the end of 2013.

CONTACT US:

Here we listed the contact information of the beneficiaries:

Proposal number: 323945 **Acronym**: 3x3Dlmaging
