The main deliverables of the PRODI project were disseminated in the events of the above table after each of them was published. The D1.6, final vision paper was published at the end of the project, so it had to be disseminated after the project duration, mostly in activities number 30-32. It should also be emphasized that the main PRODI deliverables are accessible through the wiki database of Organic Electronics Association (OE-A). The address of the wiki database is:

www.oe-a-wiki.org

So far over 500 persons have accessed the vision paper.
