

Report on Use and Dissemination of Foreground

CEE and EU Development by Improving Start-up Support Ecosystem for take-up of FI-PPP
Combination of Collaborative Project and Coordination and Support Action
Grant Agreement n° 632807

Due date of deliverable: 29/08/2016

Actual Submission date: 20/07/2016

Deliverable Title: Report on Use and Dissemination of Foreground

WP related to the Deliverable: All

Responsible beneficiary: Civitta

Contributing beneficiaries: Civitta
Startup Yard
Startup Wise Guys
OCC
Digital Factory
The Spot

Dissemination level: P

Start Date of the Project: 01/07/2014 (24 Months)

1 Introduction

A plan for use and dissemination of foreground (including socio-economic impact and target groups for the results of the research) shall be established at the end of the project. It should, where appropriate, be an update of the initial plan in Annex I for use and dissemination of foreground and be consistent with the report on societal implications on the use and dissemination of foreground (section 4.3 – H).

The plan consists of:

- Section A

This section should describe the dissemination measures, including any scientific publications relating to foreground. **Its content will be made available in the public domain** thus demonstrating the added-value and positive impact of the project on the European Union.

- Section B

This section should specify the exploitable foreground and provide the plans for exploitation. All these data can be public or confidential; the report must clearly mark non-publishable (confidential) parts that will be treated as such by the Commission. Information under Section B that is not marked as confidential **will be made available in the public domain** thus demonstrating the added-value and positive impact of the project on the European Union.

Section A (public)

This section includes two templates

- Template A1: List of all scientific (peer reviewed) publications relating to the foreground of the project.

This is not applicable to CEED Tech.

- Template A2: List of all dissemination activities (publications, conferences, workshops, web sites/applications, press releases, flyers, articles published in the popular press, videos, media briefings, presentations, exhibitions, thesis, interviews, films, TV clips, posters).

These tables are cumulative, which means that they should always show all publications and activities from the beginning until after the end of the project. Updates are possible at any time.
