- **Total Cost:** *434,076 €*
- **EC Contribution:** *328,156 €*
- **Contract Number:** *INFSO-ICT- 257262*

European Future Internet Setting the agenda

- Important Future Internet Community Discussions:
 - Picking up from the Inter-ETP action:
 - Capturing the Application Pull
 - Involving more than the FI-PPP projects
 - Writing the next **European Future Internet Agenda**
 - Discussing the openness and interoperability of the FI-PPP results
 - Use of interfaces by FP7 projects
 - Discussion on new ideas and instruments for FP8
 - Can we improve the research structures?

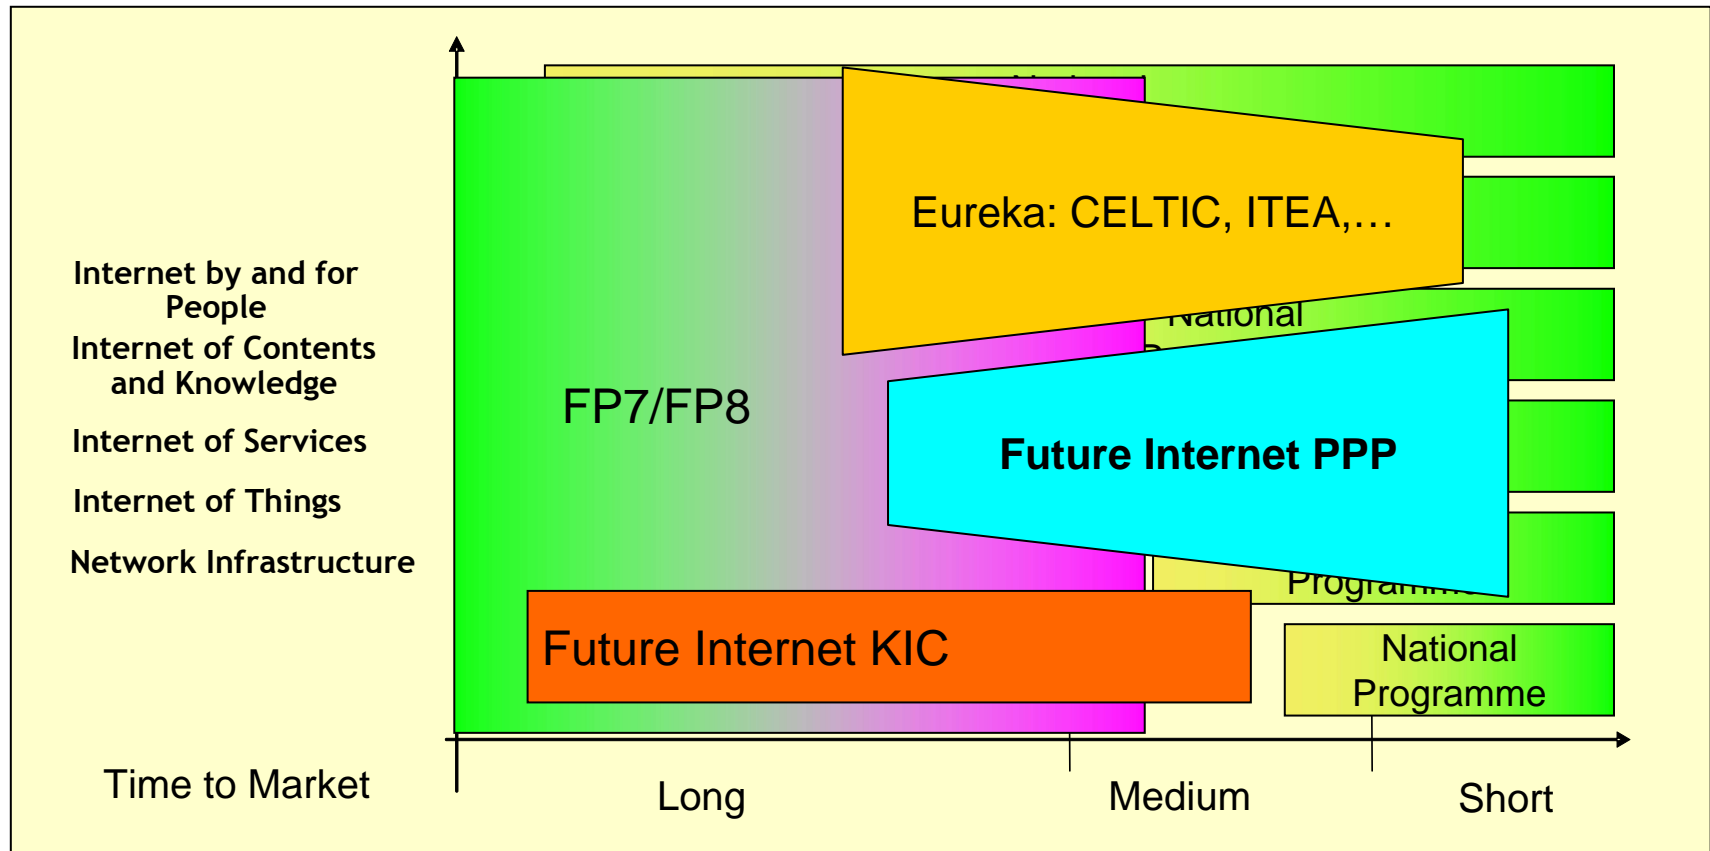

- Attracting the sector players
- Growing new partnerships
- Integrating SMEs and Academic Institutions
- Ensuring openness in the solutions
- Unambiguous architecture rules
- Interfaces at all levels
- Relevant to all European research instruments

European Future Internet Landscape

EX- FI : Expanding the Future Internet Community

A Comprehensive Agenda

European Future Internet community Being Involved..

- Main mail list is via website registrations:
 - initiative.future-internet.eu
- We will set up a simple membership model
 - Companies, Universities, legal , whoever may join
- Workgroups may be set up on demand
 - Leader – contributors – plan – deliverable
- Lightweight Management
 - Simple Office and Executive, Steering board 2xYear,
 - Working meetings/General Assembly
 -if we can reduce the overall number of events !!!

Following Progress

- ec.europa.eu/foi
 - Read about the many activities the EC undertakes on Future Internet
- www.future-internet.eu
 - The European Future Internet Portal – the community site
- cordis.europa.eu/ict/ch1 –
 - Ongoing European FI research & development activities
- initiaitive.future-internet.eu
 - The European Future Internet Initiative part of the community site – and supported by EX-FI
