Coordinated in:
Belgium

Objective

Objectives - Not only every patient is different, but also every drug. Drug dosage must be individualised and adjusted to the patient's organ function (e.g., age, kidney) and severity of disease (e.g., outpatient, or intensive care).

DESCRIPTION OF WORK
Consortium - The original consortium has 4 small and medium sized enterprises (DatMO, IGESber, MediHeer, ZuPvien) and 4 research and technology developers (NEPharm, MWPharm, GPNott, HospOer). The basic components are available, namely the pharmacokinet.
