***Amendments to FP6 contracts***

---

# Introduction

---

- An amendment to a contract is a contractual document that **modifies some provisions of the initial contract**.
- An amendment is needed when the changes to provisions of the contract could **affect the rights or obligations** of one or more contractors, or of the Commission.
- Amendments of FP6 contracts are normally implemented through an exchange of letters. The content of both letters must demonstrate the agreement between the parties.
- Amendment guidelines including model requests are available on the EUROPA website.
