CORDIS Results Pack on **fertilisers**

Innovative research for sustainable nutrient management

This CORDIS Results Pack highlights
13 projects that offer innovative ways to
synthesise, use and recapture soil nutrients.

To access the full Results Pack
please go to
europa.eu/!VKV8k4
or scan the QR code.

Nutrient use efficiency
Reducing nutrient losses
Green alternatives
Substitution of chemicals
Food security
Cyanobacteria
Sustainable farming
Soil fertility
Compost
Phosphorus recovery
Manure
Ammonia
Excess nutrients
Nitrate
Crop production
Organic waste
Reducing emissions
Green transition
Circular farming
Bio-based fertilisers
Closed nutrient cycles
Rhizobacteria
Nutrient recycling
CAP
Soil health and productivity
Nutrient recovery
Waste water
Bioeconomy
Sustainable food systems
Fertilising Products Regulation
Farm to Fork Strategy
Zero pollution action plan
