The emergence of Blockchain technology promises to decentralise and revolutionise not only the financial world, but also education in various ways. Blockchain technology offers opportunities to thoroughly rethink how we find educational content and tutoring services online, how we register and pay for them, as well as how we get accredited for what we have learned and how this accreditation affects our career trajectory.

The QualiChain project offers a variety of videos explaining different aspects of Blockchains and Decentralisation. Visit <https://qualichain-project.eu/learn/> to learn about Blockchain technology and its potential for driving decentralisation in education and elsewhere.
