Client	Project Steering Committee
Document number	H_D8.4
Approval status - draft, -pending, -approved	approved
Purpose	Project deliverable

Change Records³

Version	Date	Reason for Change	Author
V.0.1	29-08-2011		MV
V.0.2	30-08-2011	Added contribution Nanjing University	MV
V1.0	30-08-2011	Final – includes 3D Cluster, IBC and Final Conference	PS

Dissemination

Version	Level ⁴ PU, PP, RE, CO ⁵ , WD	Notes
V1.0	PU	

Distribution if not public⁶

Name	Organisation	Version	Date

¹ Author: primary author(s) of the core document. Authors of changes are identified elsewhere.

² Owner: WorkPackage leader organisation

³ Change records: Changes in Major Version are the responsibility of the HELIUM3D Configuration Management Administrator. Changes in Minor Version are the responsibility of the Document Owner

⁴ **PU** = Public, **PP** = Restricted to other programme participants (including the Commission Services), **RE** = Restricted to a group specified by the consortium (including the Commission Services), **CO** = Confidential, only for members of the consortium (including the Commission Services), **WD** = Working Draft, only for members of the Work Team producing the document

⁵ If marked CO, or WD, then the document is deemed to be CONFIDENTIAL and Section 10 of the HELIUM3D Consortium Agreement applies, IF the Dissemination Level of the document changes to PP or RE, change the document's Custom Property 'Disposition' to RESTRICTED AND CONFIDENTIAL. If the document changes to PU, then set Disposition to PUBLIC.

⁶ Distribution: This is a cumulative record showing all external recipients of all released non-public versions.

1 Introduction

This deliverable sums up all dissemination activities of the Helium3D project, consisting of three elements:

1. A detailed table of dissemination activities of various types
2. A list of published papers and their details
3. Miscellaneous activities

There are no explicit evaluations of effectiveness of said activities. However, the dissemination has the following qualities that indicate the dissemination has very likely resulted in a) exposure of the project and its content, b) networking and collaboration between universities and businesses, c) new applications of (parts of) Helium3D results, d) inspiration for, and expectation of, future research on the area of 3D displays and 3D interaction:

1. Wide variety of dissemination types: conference presentations, papers, articles, demos, tutorials, flyers, conference visits.
2. Wide variety of topics and findings: 3D display technology, 3D display evaluation, pupil tracking, gesture tracking, human factors, etc.
3. Wide variety of international public (see below)

2 Dissemination activities

Title	Person Responsible	Proceedings/Publication Name	Authors	Media Type	Type of Audience	Size of Audience	Comments
IBC2010	Ian Sexton	http://www.ibc.org/page.cfm/link=219		Exhibition Stand	Research, Industry & Public	50000	Invited stand at New Technology Campus
Ditch the glasses for lifelike 3D	Sally Day	http://www.newscientist.com/article/mg20827805.800-ditch-the-glasses-for-lif%20elike-3d.html?full=true	Lewis Dartnell	Media Briefing	General Public		The interviewer did not allow review of the final article.
Micro-optics for a Laser Based Auto-stereoscopic Multi-Viewer Display	Hadi Baghsiahi	Society for Information Display International Symposium Digest of Technical Papers 2011 Paper 48.4	H. Baghsiahi, E. Willman, F. A. Fernández, David R. Selviah, S. E. Day, K. Akşit, S. Ölger, A. Mostafazadeh, E. Erden, VC Kishore, H. Urey, P. A. Surman	Conference Presentation	Research, Industry & Public	1000	http://dx.doi.org/10.1889/1.3621421
3D Display Technology	Phil Surman	Lecture at Tianjin University, China	Phil Surman	Other	Higher Education	50	Invited lecture on 3D display technology with emphasis on MUTED and HELIUM3D
3D displays: past, present and future	Phil Surman	Workshop on Liquid Crystals for Photonics, Hong Kong University of Science and Technology	Phil Surman	Conference Presentation	Research and Industry	150	Invited paper giving overview on 3D displays with emphasis on the HELIUM3D approach.
HELIUM3D, a Laser-based Display with '3D+' Capability	Phil Surman	CVMP2010, Proceedings of The 7th European Conference on Visual Media Production, ISBN 978-0-7695-4268-3	R. Brar, P. Surman, I. Sexton, K. Hopf	Publication	Research, Industry & Public	200	
The Optics of an Autostereoscopic Multiview Display	Eero Willman	The Society for Information Display, 2010 International Symposium, Seminar, and Exhibition Washington State Convention Center, Seattle, WA, USA	Eero Willman, H. Baghsiahi, F. A. Fernández, D. R. Selviah, S. E. Day, Kishore V. C., E. Erden, H. Urey, P. A. Surman	Conference Presentation	Research and Industry	1000	Dates: 23-28 May, 2010. Oral presentation. Session number 16.4
PROJECTION-BASED HEAD TRACKING 3D DISPLAYS	Phil Surman	Special edition of J SID - MEME and Projection Displays	Rajwinder Singh Brar, Phil Surman, Ian Sexton, Klaus Hopf	Publication	Research, Industry & Public	10000	Provisionally accepted (SID waiting for revision) To be published fourth quarter 2010
HELIUM3D	Phil Surman	3D Media Cluster Meeting, Antwerp	Phil Surman, Ian Sexton	Other	Research and Industry	250	DMU gave presentations to other Cluster members on HELIUM3D and MUTED
HELIUM3D	Phil Surman	3D Cluster KickOff Meeting, Vilamoura	Phil Surman, Ian Sexton	Publication	Research and Industry	250	DMU gave presentations representing HELIUM3D and MUTED to Cluster members
HELIUM3D Display Technology	Phil Surman	3D Display Conference	Phil Surman, Ian Sexton, Rajwinder Brar	Publication	Research and Industry	30	Conference at UCL on 21/4/10
MUTED - Multi User 3D Display	Phil Surman	Special edition of J SID	Rajwinder Singh Brar, Phil Surman, Ian Sexton, Klaus Hopf	Publication	Research and Industry	5000	Date of publication fourth quarter 2010 Provisionally accepted
MUTED AND HELIUM3D AUTOSTEREOSCOPIC DISPLAYS	Phil Surman	2010 International Workshop on Hot Topics in 3D Media - Hot 3D	Phil Surman, Rajwinder Singh Brar, Ian Sexton, Klaus Hopf	Conference Presentation	Research, Industry & Public	200	Workshop in conjunction with icme, Singapore, July 23, 2010
MULTI-USER GLASSES FREE 3D DISPLAY USING AN OPTICAL ARRAY	Phil Surman	3DTV -Con 2010- Capture, Transmission and Display of 3D Video	Rajwinder Singh Brar, Phil Surman, Ian Sexton, Richard Bates, Wing Kai Lee, Klaus Hopf, Frank Neumann	Conference Presentation	Research, Industry & Public	250	The 3DTV Conference will be held in Tampere, 7-9 June 2010
Laser-based Head-tracked 3D Display Research	Phil Surman	IEEE Special Issue in the Journal of Display Technology	Rajwinder Singh Brar, Phil Surman, Ian Sexton, Richard Bates, Wing Kai Lee, Klaus Hopf, Frank Neumann, Sally Day, Eero Willman	Publication	Research and Industry	5000	Paper accepted To be published fourth quarter 2010
performance of a path tracing task using stereoscopic and motion based depth cues	Maurice van Beurden	IEEE QoMEX'10 Conference Proceedings	Maurice van Beurden, Andre Kuijsters and Wijnand IJsselstein	Conference Presentation	Research	50	
Range and variability in gesture-based interactions with medical images	Maurice van Beurden	no proceeding	Maurice van Beurden & Wijnand IJsselstein	Conference Presentation	Research	40	
CeBIT 2010 (2.03.2010 - 6.03.2010)	Klaus Hopf	HELIUM3D flyers have been distributed within FHG's presentations at the Fraunhofer booth		Flyers	Industry Sector	334000	
Novel user interaction technologies	Gert Van Hoey	14th Multimedia Community (MuMe) Work Meeting, 17 November 2009	Gert Van Hoey	Conference Presentation	Research and Industry	50	
Professional applications of 3D displays	Gert Van Hoey	SID UK & Ireland Chapter 3D Display Conference, London, 21 April 2010	Gert Van Hoey	Conference Presentation	Research and Industry	50	
HELIUM3D	Phil Surman	Presentation at 3D Media Cluster Meeting, Brussels, 4 February 2010	Phil Surman	Other	Research and Industry	250	Presentation to the 10 organisations of the 3D Media cluster for distribution to organisation members.
3D Media Workshop (15.10.09 - 16.10.09)	Klaus Hopf	MUTED and HELIUM3D: Two Approaches to Laser-Based Stereo'	Phil Surman	Conference Presentation	Research and Industry	150	

Title	Person Responsible	Proceedings/Publication Name	Authors	Media Type	Type of Audience	Size of Audience	Comments
IFA 2009 (4.09.09 - 9.09.09)	Klaus Hopf	HELIUM3D flyers have been distributed within FhG's presentations at the Fraunhofer booth		Flyers	Research, Industry & Public	228600	
CeBIT 2009 (3.03.09 - 8.03.09)	Klaus Hopf	HELIUM3D flyers have been distributed within FhG's presentations at the Fraunhofer booth		Flyers	Industry Sector	400000	
Laser Scanning Based Autostereoscopic 3D Display with Pupil Tracking	Hakan Urey	Proceedings of the IEEE Photonics 2009, Antalya, Turkey, pp. 10-11, October 2009	Erden E., Chellappan Kishore. V., Ürey H., Baghsiahi H., Willman E., Day S. E., Selviah D. R., Fernandez F. A. Surman P.,	Conference Presentation	Research, Industry & Public	200	Oral presentation at IEEE Photonics 2009, Antalya, Turkey, October 2009
Laser Scanning 3D Display with Dynamic Exit Pupil	Hakan Urey	Proceedings of the 29th International Display Research Conference, Rome, Italy, 492-495, September 2009	Kishore V. C., Erdem Erden, Hakan Urey, Eero Willman, Hadi Baghsiahi, Sally E. Day, David R. Selviah, F. Anibal Fernández, and Phil Surman	Conference Presentation	Research, Industry & Public	200	Oral presentation at the 29th International Display Research Conference, Rome, Italy
Laser based displays: A Review (Invited)	Hakan Urey	Applied Optics	Kishore V. Chellappan, Erdem Erden, Hakan Urey	Publication	Research, Industry & Public	10000	A section about Helium3D has been included in this invited article for a special issue of Applied Optics on "Lasers: the first 50 years".
National ISO fair	Hakan Urey			Exhibition Stand	Research, Industry & Public	40	Poster presentation in industry and innovation fair in Istanbul during the dates Dec 15-16 2009.
HELIUM3D	Eero Willman	London Technology Network, Emerging Applications for 3D Technologies and Interactivity	Eero Willman, Hadi Baghsiahi, Phil Surman	Poster Display	Research and Industry	100	Event to be held on 24th June 2009
HELIUM3D poster	Eero Willman			Poster Display	Research and Industry	100	3rd April 2009: Poster presentation at a research Open Day at UCL, attracting a wide audience from the UK University and Industrial Research Base
Liquid crystals in Electro-optics	Sally Day			Conference Presentation	Higher Education	50	Research Seminar in the Physics Department at Southampton University (13th March). A short description of the project was given.
Interactive Multimodal 3D Visualisation Display	Phil Surman	Kinetica Arts Fair - meeting hosted in London by UKDL on 3/3/09	Phil Surman	Conference Presentation	Research, Industry & Public	50	Conference attached to art exhibition; intended to bring together artists and technologists.
3D Displays Employing Novel Projection Techniques	Phil Surman	UKDL Workshop 'Investigating 3D Technologies and Projection Displays', De Montfort University	Phil Surman	Conference Presentation	Research and Industry	100	
Solving the Problem -The History and Development of Viable Domestic 3DTV Displays	Phil Surman	Three-Dimensional Television, Capture, Transmission, Display (edited book). Springer 'Signals and Communication Technology series	P Surman, K Hopf, I Sexton, W K Lee, R Bates	Publication	Research	1000	
European Research into Head Tracked Autostereoscopic Displays	Phil Surman	3DTV Conference 2008 Proceedings, isbn:978-1-4244-1755, IEEE Catalog Number: CF0855, Library of Congress: 2007907164	Phil Surman, Ian Sexton, Klaus Hopf, Wing Kai Lee, Edward Buckley, Graham Jones, Richard Bates.	Publication	Research, Industry & Public	200	
D TV: which projects for the future?	Phil Surman	Dimension3 Expo, Chalon-sur-Saone, France	Phil Surman	Conference Presentation	Research, Industry & Public	200	
Laser-based multi-user 3-D display	Phil Surman	Journal of the Society for Information Display -- July 2008 --Vol. 16, Issue 7, pp 743 - 753	Phil Surman, Ian Sexton, Klaus Hopf, Wing Kai Lee, Frank Neumann, Edward Buckley, Graham Jones, Alex Corbett, Richard Bates and Sumanta Talukdar	Publication	Research, Industry & Public	10000	
MOEMS Display and Imaging Applications	Hakan Urey		Hakan Urey	Conference Presentation	Higher Education	80	Two research seminars on Feb 5-6, 2009 at EPFL Neuchatel and Lausanne. HELIUM3D was briefly reviewed.
Laser Illuminated Multi viewer 3D Displays	Ian Sexton	Proc. IMID 2008, pp1423-1426, Seoul, Oct 2008	Ian Sexton, Richard Bates, Wing Lee, Phil Surman, Klaus Hopf, Frank Neumann, Alex Corbett, Edward Buckley	Conference Presentation	Research, Industry & Public		
IFA 2008 (29.08.08 - 3.09.08 in Berlin, Germany)	Klaus Hopf			Flyers	Research, Industry & Public	220000	HELIUM3D flyers have been distributed within FhG's presentations at the Fraunhofer booth
HELIUM3D flyers permanently available for visitors at HHI's Media Lab	Klaus Hopf			Flyers	Research and Industry		

3 Published papers and articles

The following list denotes all published papers as a result of work done for the Helium3D project.

HELIUM3D Poster at London Technology Network, Emerging Applications for 3D Technologies and Interactivity Authors: Eero Willman, Hadi Baghsiahi, Phil Surman

HELIUM3D poster 3rd April 2009: Poster presentation at a research Open Day at UCL

Liquid crystals in Electro-optics, Sally Day Research Seminar in the Physics Department at Southampton University (13th March).

'3D Display Technologies', Phil Surman, Tutorial in Summer School for graduate students at Tampere University of Technology, May 2010

4.2 3D Immersive, Interactive Media Cluster (formerly 3D Media Cluster)

DMU was one of the founder members of the 3D Media Cluster that grew out of the 3D TV Network of Excellence; both of these being led by Professor Levent Onural of Bilkent University. The Cluster is the main umbrella structure embracing related EC-funded projects to develop joint strategic goals towards 3D Media in the context of future Internet.

HELIUM3D has been represented at the following Cluster meetings:

Vilamoura, Portugal	17 th April, 2008
Antwerp, Belgium	27 th April, 2009
Brussels, Belgium	4 th February, 2010
Brussels, Belgium	30 th November, 2010
Trento, Italy	24 th April, 2011

4.3 IBC Amsterdam, 9th – 14th September, 2010

HELIUM3D exhibited at stand in the New Technology Campus that was part of the Future Zone at the International Broadcasting Convention (IBC). This is Europe's largest professional broadcast show and takes place annually in the RAI Exhibition and Convention Centre, Amsterdam. It is the leading global tradeshow for professionals engaged in the creation, management and delivery of broadcasting media and entertainment. The event's exhibition and agenda encompassed the very latest developments in broadcasting, mobile TV, IPTV, digital signage and R&D making it essential for understanding the industry and its future.

Other exhibitors included: the EU's FascinatE project with the OmniCam, a social TV app from KDDI which analyses the online opinions about broadcast programmes for display on mobile devices, a means of controlling a TV by tracking the user's own gaze developed by ETRI and DOTS, a new approach to storage media claimed to have a 100 year life span and a multi-sensory interaction system that combines audio visual with tactile and olfactory sensations devised by Japan's NICT.

There was considerable interest in the HELIUM3D stand where a gesture tracker was connected to a Free2C autostereoscopic display. High visual impact was supplied by showing HELIUM3D display components on lenticular posters where the view changes as visitors walk past them.

4.4 3D TV-CON 2011, Antalya, 16 -18th May 2011

HELIUM3D hosted a special Session in the prestigious 3D TV Conference; this has been held in various venues around Europe and Turkey since 2007 and developed from the 3D TV Network of Excellence (NoE) that was funded by the EU and ran from 2004 to 2008. Three of the HELIUM3D partners were in the 3D TV NoE consortium and it was through this that they formed the basis of the HELIUM3D consortium

The 3DTV Conference, technically co-sponsored by IEEE, has become the premier forum for the presentation of research results and technological advances in relation to 3D television. 3DTV-CON 2011 was the 5th conference of the series. Conference topics cover a wide range of fields including capture, processing, coding, transmission, visualization, interaction and applications of 3D TV.

The final HELIUM3D conference took the form of a Special Session of the 3D TV Conference in Antalya in May 2011. This comprised five papers and a two-hour tutorial. The session was attended by around 60 delegates.

Programme

Tuesday 17th May 2011, 08:30 – 10:50

Tutorial: Laser-Based Multi-User Multi-Modal 3D Displays

Dr. Phil Surman, De Montfort University, United Kingdom

The tutorial commenced with a description of the basics of 3D vision where the factors that enable the perception of depth were explained including; disparity, motion parallax and monocular cues.

The state-of-the art in both glasses displays and autostereoscopic displays was then covered including the traditional red/cyan anaglyph, polarised glasses, active glasses, multi-view, light field and head tracked and the pros and cons of each approach were discussed.

The final part was a description of the HELIUM3D display starting with a background briefly describing the research carried out in the previous EU-funded ATTEST and MUTED projects. The operation of the principal components; the light engine, spatial light modulator, Gabor superlens screen and head tracker was explained. Possible means of taking the prototype to a viable commercial product, in particular the employment of fast LCDs that were not available at the start of the project, were described.

Wednesday, 18th May 2011, 14:45-16:25

Special Session: Multi-User Multi-Modal Interactive Displays

Chair: Michiel Visser

- 'Multi-User Eye Tracking Suitable for 3D Display Applications', Klaus Hopf; Frank Neumann; David Przewozny

- 'Measurement and Evaluation of Head Tracked Auto-Stereoscopic Displays', Maurice; H.P.H. van Beurden; Koenraad Vermeersch; Gert Van Hoey; Philip Surman
- 'Near and Far Distance Gesture Tracking for 3D Applications', Michiel Visser; Klaus Hopf
- 'Light Engine and Optics for HELIUM3D Auto-Stereoscopic Laser Scanning Display', Kaan Akşit; Selim Ölçer; Erdem Erden; VC Kishore; Hakan Urey
- 'User-Centered Design of Gesture-Based Interaction Technology', Maurice H.P.H. van Beurden; Wijnand A. IJsselsteijn; Klaus Hopf
