D1.4 Management, content update and animation of the Carer+ web portal

Deliverable Title	D1.4 ï Management, content update and animation of the Carer+ web portal
Deliverable Lead	LIKTA
Work package	WP 1
Author(s)	**Andris Melnudris, Vita Vitola**
Contributor(s)	**Eva Suba, Thomas Arbouet**
Reviewer(s)	Thomas Arbouet, Gloria Ortiz
Dissemination level	**Public**
Project Number	297304
Instrument	CIP ï ICT PSP ï Pilot B
Start date of Project	09/03/2012
Duration	36 months
Project coordinator	IFEF | IPERIA

Abstract

The Deliverable encompasses summary of work done in Carer+ web portal www.carerplus.eu management, content creation and update. Deliverable summarize work done in the period of March 2013 - March 2015, lists published materials by topics and provides information about created content and user guidance.

Quality control checklist

Quality Control Check	Tick box
Generic Minimum Quality Standards	
Document Abstract provided	☒
Document Summary provided (with adequate synopsis of contents)	☒
CARER+ format standards complied with	☒
Language, grammar and spelling acceptable	☒
Objectives of Description of Work covered	☒
Work deliverable relates to adequately covered	☒
Quality of text is acceptable (organisation and structure; diagrams; readability)	☒
Comprehensiveness is acceptable (no missing sections; missing references; unexplained arguments)	☒
Usability is acceptable (deliverable provides clear information in a form that is useful to the reader)	☒
Deliverable specific quality criteria	
Deliverable meets the 'acceptance Criteria' set out in the Quality Register	☒
For Key Deliverables only	
Deliverable approved by external reviewers	☐
Checklist completed and deliverable approved by Name: Gloria Ortiz Signature: Date: 29/04/2015	

Final checklist to be completed and deliverable signed off by primary reviewer

Document review history

Version	Name	Status *	Date	Summary of changes
1.0	Andris Melnudris, Vita Vitola	A	13.05.2014	First version of the deliverable.
2.0	Andris Melnudris, Vita Vitola	A	29.04.2015	Final version of the deliverable
2.0	Gloria Ortiz	PIR	29.04.2015	Review

***Status:** Indicate if:

Document summary

This document contains the description or work done in project web pages www.carerplus.eu management, content creation and use support. It specifies the work done during the time period of March 2013 - March 2015.

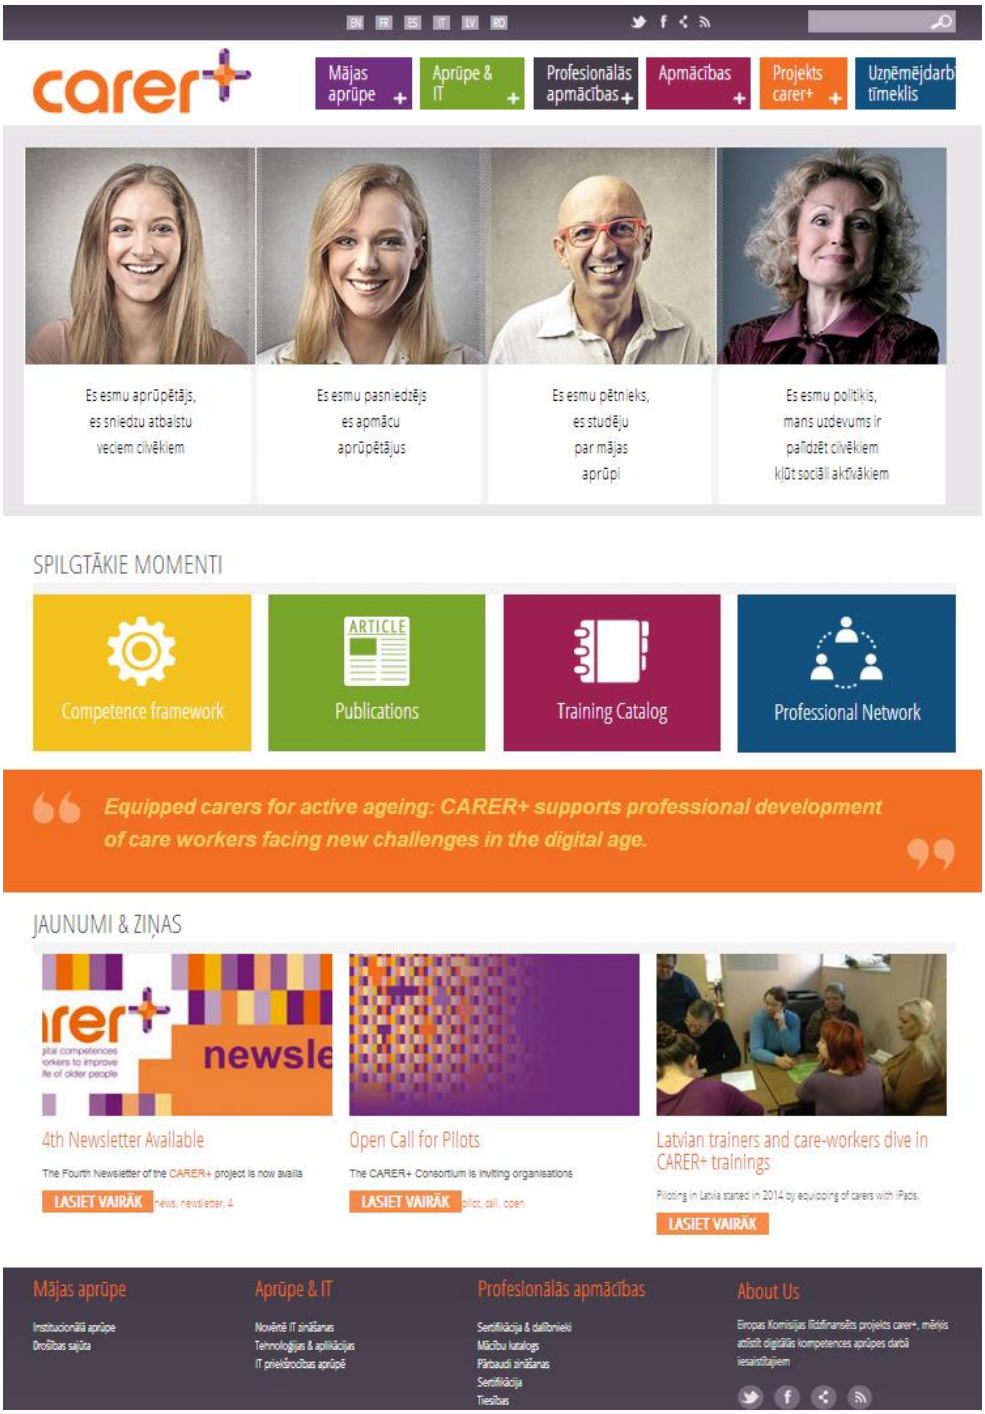
Document includes the description of work done in content creators support, produced documents and assembles published materials in project web portal.

Document explains the main web portal target audiences and publication objectives and it includes a full list of published articles and description of published Country Fact sheets gathered in Deliverable D1.3.

All created content is in compliance with the project general Dissemination guidelines ï Deliverable D7.2. Dissemination and consensus building - *Dissemination and Communication Plan.*

Management, content update and animation

In the time period of March 2013 ï March 2015 in total 368 articles have been published in web portal http://carerplus.eu/, country fact-sheets have been published for all European Union countries in five categories in English and all project piloting partner languages (Latvian, Romanian, French, Spanish, Italian). Country fact-sheets have been gathered and published also separately in Deliverable D1.3. Published articles were created in English and/or pilot partner country languages. Posts targeting the carers and/or trainers (as example ï blog posts) were written in Pilots country languages and in English. Posts targeting policy makers and researchers were mainly created in English.



Technical support

Web Page testing has been done in June 2013 ï August 2013 by using Trello, suggestions and evaluation has been provided to WP leaders, all recommendations have been implemented.

In order to encourage project partners for sustainable web page management fallowing guidelines have been created:

- Carer+ web portal publication guidelines
- Technical guidelines - How to use the web portalõs CMS?

Individual consultations with web portal content creators had been organized via online

meetings and e-mail correspondence.

Types of publications

In order to cover all target audiences various types of publications were published in the web platform. Based on the responsibilities and activities within the project, partners produced:

- Press releases;
- Blog posts (carer personal experience in project implementation);
- Event posts (pictures, videos are recommended);
- Pilot performance reports;
- Validation/Training reports;
- Studies in sector (eHealth, home care etc.).

All created publications are in compliance with the project general Dissemination guidelines ï Deliverable D7.2. Dissemination and consensus building - *Dissemination and Communication Plan.*

Produced articles by project partners

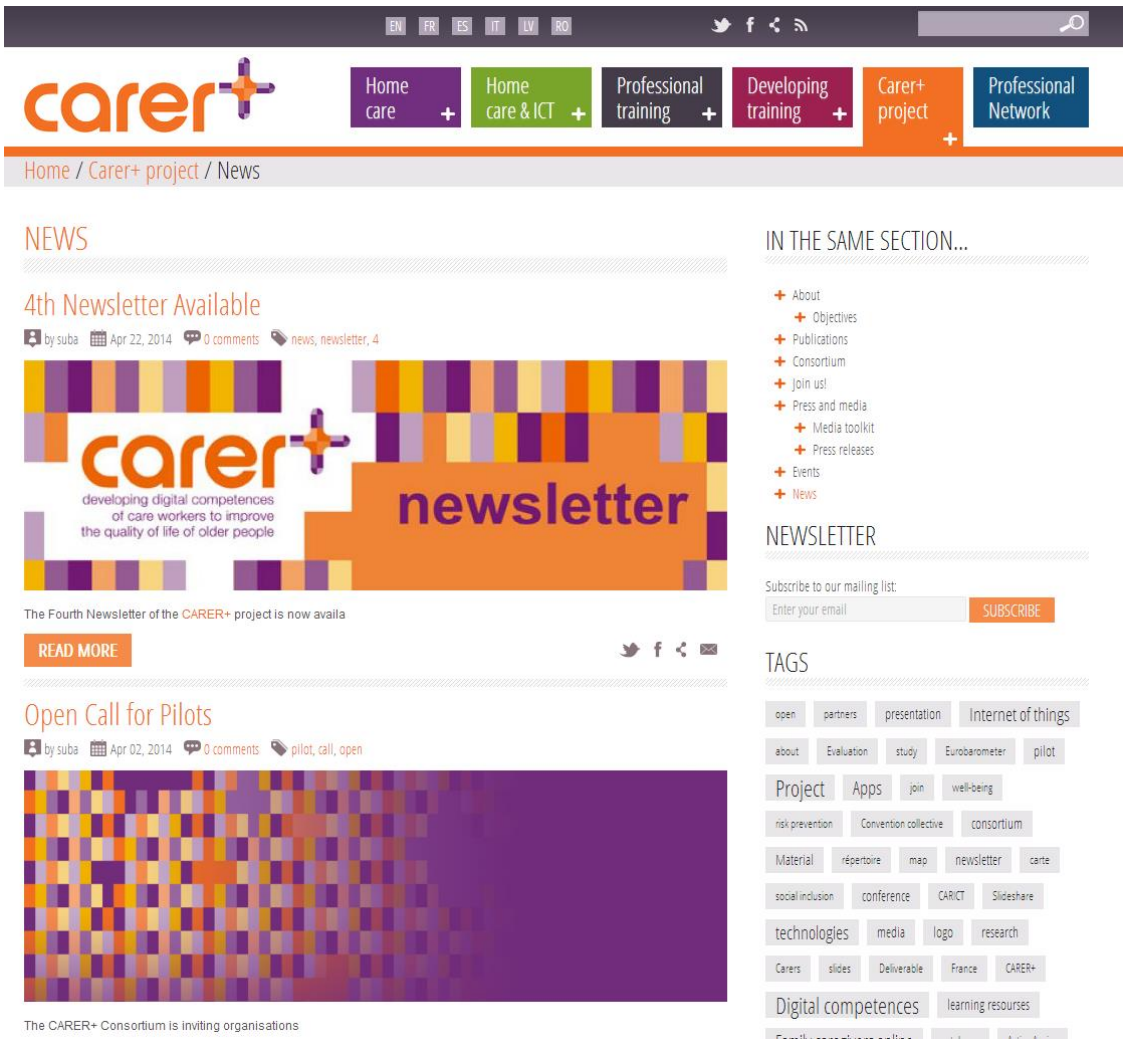
The main objective of the dissemination through web platform ï to create awareness among the different actors involved in the Carer+ projects from caretakers to general public.

Carer+ target market has been categorized in four main groups:

- Institutions, organisations and individuals who are directly involved in adult care ï Care workers & Care givers;
- Institutions, organisations and individuals who are training carers; super trainers;
- Local/ regional/ national/ international policy-makers - Certification/ Accreditation Authorities ï Social Care GOs and NGOs;
- Research Community, Association of General Practitioners, Doctors, VET professors.

The objectives of the created web page content work in details are:

- To disseminate the project results and activities, and ongoing work according to the target groups;
- To inform the general public about the project activities and create awareness among citizens;
- To reflect the validation activities and involved carers experiences on different project implementation phases.



Based on the set objectives partners have produced articles published in www.carerplus.eu web portal including the following:

- Security and risk prevention at home
- Caring for older people at home
- eHealth goes mobile
- Webnapperon2
- Digital Competence Framework
- Handbook for Pre-Pilot, Pilot and Post-Pilot Phases
- Anticipating a new and vital role for care workers as a œCarer+ô
