

Collaborative project

Project acronym: SNM

Project full title: "**Single Nanometer Manufacturing for beyond CMOS devices**"

Grant agreement no: 318804

Deliverable: D12.8 ("SNM short youtube-like video for publication & EC public presentation")

Name of the coordinating person: Prof. Dr. Ivo W. Rangelow, Email: ivo.rangelow@tu-ilmenau.de

List of participants:

| Participant no. | Participant organisation name | Part. short name | Activity Type | Country |
|-----------------|---|------------------|---------------|-------------|
| 1 (Co) | Technische Universität Ilmenau | TUIL | HER | Germany |
| 2 | EV Group E. Thallner GmbH | EVG | IND; End-user | Austria |
| 3 | IMEC | IMEC | RES | Belgium |
| 4 | Mikrosistemi Ltd | μS | SME; End-User | Bulgaria |
| 5 | Universität Bayreuth | UBT | HER | Germany |
| 6 | Technische Universiteit Delft | TUD | HER | Netherlands |
| 7 | Spanish National Research Council | CSIC | RES | Spain |
| 8 | IBM Research GmbH | IBM | IND; End-user | Switzerland |
| 9 | École polytechnique fédérale de Lausanne | EPFL | HER | Switzerland |
| 10 | SwissLitho AG | SL | SME; End-User | Switzerland |
| 11 | Oxford Instruments Nanotechnology Tools Ltd | OINT | IND; End-user | UK |
| 12 | Imperial College London | IMPERIAL | HER | UK |
| 13 | The Open University | OU | HER | UK |
| 14 | Oxford Scientific Consultants Ltd | OSC | SME | UK |
| 15 | VSL Dutch Metrology Institute | VSL | IND | Netherlands |
| 16 | University of Liverpool | ULIV | HER | UK |

| Description of the Deliverable | <p>We as coordination unit at TUIL hired the film producer Chirag Saraswati who had a recommendation of Prof. Heidi Krömker, head of department media production at TU Ilmenau.</p> <p>After an introduction to the project Chirag Saraswati created a script of the possible video. During the work on the film he had the idea of combining the video production with a media project needed for his studies. To fulfil the requirements for the media project, we agreed on the production of 2 additional films. The vision is to deliver a video regarding to the users knowledge and interests. This will be done by a short questionnaire. This interactive media presentation will promote our SNM project even more. The right promotion strategy will be developed as part of the media project.</p> <p>The produced film is a general introduction of the project naming all partners and briefly explaining their part in the project. The video is over 6 minutes long, and features carefully edited interview clips with the team members of SNM, together with high quality visual evocations of the technology. It is targeted at interested members of the general public and can be understood by high school students.</p> <p>All partners need to approve the current version of the video and allow the publication. This is currently in progress.</p> <p>The premiere will be at the 3rd review meeting on March 14th at the European Commission in Brussels. Afterwards it will be available on the SNM project website.</p> |
