1 Introduction

SSPNet deliverable D3.4 is the second version of the network portal (available at <http://www.sspnet.eu>). The portal includes two major sections:

- *The Intranet.* This section includes pages visible only to network members. The Intranet fulfills the twofold function of repository of internal documents supposed to be available to all members, and communication means for exchange between members.
- *The Public Pages.* This section includes all pages accessible, without restriction, to any visitor.
