1. INTRODUCTION

1.1 Executive Summary

This deliverable belongs to WP6, which shall develop and implement a concrete strategy for the dissemination of results and for sharing experiences and lessons learnt at international level through a Best Practice Exchange network. At the very beginning a detailed dissemination plan will be prepared to assure the maximum impact along the project duration and afterwards. An official project website will be created and maintained in order to collect all information related to the project and act as a powerful communication tool. Conferences, meetings and workshops will be organized to disseminate the project knowledge.

This deliverable consists in the description of the dissemination activities that have been performed during the first year of CAALYX-MV (February 2011 – January 2012).

1.2 Purpose and content of this deliverable

The previous document, D6.1 CAALYX-MV Dissemination Plan, established the dissemination strategy to be followed in CAALYX-MV project. This document lists the dissemination activities during first year of the project.

1.3 Outline of this deliverable

Dissemination activities are listed according to the following list: publications, conferences, workshops and seminars attended or organized, organizations contacted and media appearances.

2. DISSEMINATION ACTIVITIES

The concrete dissemination activities planned for the next years are listed below. This list will be completed during the project by adding new activities that were not planned. Some activities to include are: awareness-raising activities, best practices exchange, achieve visibility in commission-programme websites, press releases, publication in journal and conferences, contact with other European and International projects and organization of workshops.

2.1 Publications

Suitable conferences and journals are listed in section 4.2.6 of D6.1.

The screenshot shows the CAALYX-MV Project Website. At the top right, there are links for 'Web map', 'Contact', and 'Login'. The main navigation menu includes 'Home', 'Project' (which is highlighted with a yellow bar and an upward-pointing arrow), 'News', 'Public Documents', 'Consortium', 'Related Projects', and 'Events'. Below the navigation, a breadcrumb trail reads 'You are at: Home > Project'.

The main content area is divided into sections:

- OBJECTIVES**: A paragraph describing the CAALYX-MV objective to improve the quality of life for the elderly through ICT-based solutions.
- CAALYX-MV SOLUTION**: A section detailing the solution's components, including:
 - The Home system for monitoring and interaction.
 - The Roaming system for unobtrusive monitoring of the elderly.
 - Care Services for monitoring by family and health services.
- MARKET VALIDATION**: A section describing the testing and validation process across different EU countries.

On the right side of the page, there is a sidebar with a 'Subscribe to RSS' button and a 'Tag cloud' featuring the text 'CAALYX-MV info independent living Tele-assistance monitoring'. Below the tag cloud is a calendar for March 2012, showing dates from Sunday to Saturday, with the 15th highlighted in yellow and a '0 events' indicator below it.
