

Project acronym	X10D
Project full title	Efficient, low-cost, stable tandem organic devices
Grant Agreement no.	287818
Call identifier	FP7-ICT-2011-7
Instrument	Collaborative Project - Large scale integrating projects
Start date of project	01.10.2011
Duration	36 months
Coordinator	Dr. Tom Aernouts
Organisation	INTERUNIVERSITAIR MICRO-ELECTRONICA CENTRUM VZW (imec)
Tel	+32 16 28 16 89
Fax	+32 16 28 10 97
Email	Tom.Aernouts@imec.be

Version

1.0

Due date of deliverable

01 April 2013

Actual submission date

01 July 2013

The research leading to these results has received funding from the European Community's Seventh Framework Programme (FP7/2007-2013) under grant agreement n° 287818 of the X10D project.

Description of deliverable achievement

Executive summary

A project status brochure was planned at midterm, which should give a general overview of the X10D project. This brochure should include the main objectives as well as the project structure and gives an overview on the partners of the project. The main results obtained so far can be included. Such updated brochure has been replaced by another dissemination tool, being a project movie. Additionally, efforts will be spend further in the project to produce even a second movie.

Achievements

In contrast to what was originally planned in the Description of Work, during the project we came to the view that other platforms than brochures can also be exploited as dissemination tools on the objective, structure, partners and progress of this project.

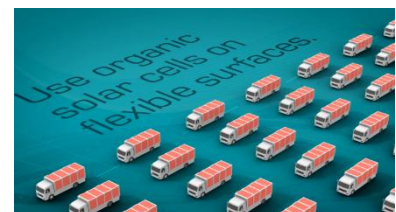

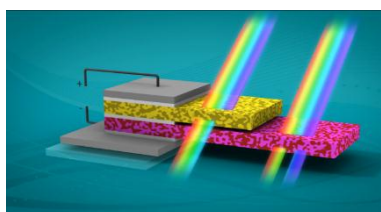

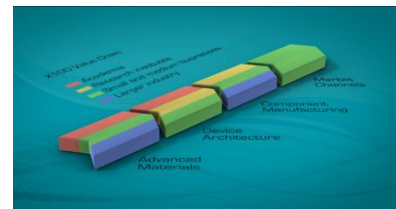

In that respect, a movie has been produced and released to show the objectives, structure and partners of this project.

Highlights

A first project movie has been realized and released, it can be viewed through following link:

https://www.youtube.com/watch?feature=player_embedded&v=Ef4_zwuJmjE

Some snapshots are shown here:

Deviation from plan

No midterm project brochure is made available. Next to the planned final brochure however, a second movie will be released as additional dissemination tool.

Conclusions

A novel dissemination tool instead of an update brochure has been exploited successfully to draw attention to this project. A first project movie has been fabricated and released, whereas a second one at the end of the project is planned.

The research leading to these results has received funding from the European Community's Seventh Framework Programme (FP7/2007-2013) under grant agreement n° 287818 of the X10D project.
