### Summary of Appointments Made

1. The number of applications received and the number of appointments made each year is summarised in the table below:

Year	Total Number of Applications	Number and % of Female Applications	Total number of Appointments	Number and % of Female Appointments
2009	53	19 (36%)	6*	1 (17%)
2010	65	14 (22%)	5*	1 (20%)
2011	No Call			
2012	33	14 (42%)	3*	2 (66%)
2013	58	13 (22%)	6	1 (17%)
<b>Total number appointed</b>			20	5 (25%)
<b>Number of which used the COFUND</b>			14	3 (21%)

The COFUND acceptance rate was 70%.

\*Of the 20 Fellows who were appointed and had access to the COFUND, six did not make use of it for the reasons stated below:

- A 2009 Research Fellow could not take up the opportunity as she had a PhD student to supervise and she felt that she could not spend time away from her host institution. The RSE did encourage her to take up COFUND and it was agreed with the European Commission that the Research Fellow could make several journeys to maintain her supervision of the PhD students whilst overseas. Unfortunately, the Research Fellow decided this was not an option for her and declined the COFUND opportunity.
- Two 2010 Fellows were unable to travel or attend any training before the grant expiry date (29 March 2015).
- A 2012 Fellow had to withdraw from the Fellowship as he was offered a position in England.
- A 2012 Fellow was not able to use the COFUND as she went on maternity leave in November 2014 and had not finalised travel plans before this.
- A 2013 Fellow was unable to travel or attend any training before the grant expiry date (29 March 2015).
