

Added value		Information & Communication
ADD-differentiation		I&C-availability
ADD-farmer to retail		I&C-product labeling
ADD-share of farm in total		I&C-stakeholders
ADD-share of processing in total		Labour relations
ADD-value added farm		LABOUR-capacity development
ADD-value added processing		LABOUR-employment
ADD-value added supply chain		LABOUR-freedom
Affordability		LABOUR-health
AFF-consumer price		LABOUR-quality of life
AFF-price perception		LABOUR-wage
Animal Welfare		Nutrition
AW-animal density		NUTR-calcium
AW-lifetime cows		NUTR-fat
AW-time pasture		NUTR-fat types
Biodiversity		NUTR-salt
BIOD-agrobiodiversity		Pollution
BIOD-conservation practices		POLL-acidification potential kg
BIOD-diversity production		POLL-eutrophication potential kg
BIOD-locally adapted varieties		POLL-GHG mitigation
Consumer behaviour		POLL-GWP distribution
CONS-consumer use		POLL-GWP farm
CONS-convenience		POLL-GWP per kg product
CONS-taste		POLL-GWP processing
CONS-willingness to pay		POLL-toxicity ha
Contribution to economic development		POLL-toxicity kg
ECON-employment/land		Resilience
ECON-employment/output		RESI-adaption capacity through cooperation
ECON-labour productivity		RESI-chain based adaptation capacity through learn
ECON-land productivity (value added)		RESI-farm level price volatility
ECON-regional workforce		RESI-farm level risk spreading
ECON-total value added		RESI-use of antibiotics
Efficiency		Food Safety
EFF-direct energy use farm		SAFE-additives
EFF-labour productivity		SAFE-food safety standards
EFF-land productivity		Territoriality
EFF-material waste		TERR-stakeholder events
EFF-processing eff		Technical innovation
EFF-soil improvement		TI-innovation to reduce GHG
EFF-total FEU farm		TI-innovation to reduce waste
EFF-total FEU kg product		TI-metrics in place sustainable packing bread
EFF-water management		TI-use traditional processes
EFF-water use		
Standards and governance		
STAND-chain based value governance		
STAND-civic responsibility		
STAND-conflict		
STAND-free consent		
STAND-grievance		
STAND-legitimacy		
STAND-self governance capacity		
STAND-trust based external relations		

Table 4 - GLAMUR indicators used to assess and compare supply chains
