EU-JordanNet II

"Enhancement of Jordan-European S&T Partnerships"

Funded under FP7 Capacities Programme
Grant agreement 311910

Following the successful activities of the first EU-JordanNet project, EU-JordanNet II aims at strengthening research, development and innovation cooperation between Jordan and Europe, with a special emphasis on Jordanian SMEs. It will directly support researchers and developers who have concrete ideas for proposals through step-by-step coaching, it will assist in partner search in Europe and will also provide small mobility grants that will allow a 'training-on-the-job' at European organisations.

Apart from the awareness and training session on the Thematic Area of ICT, NMP and FOOD, the project will put particular emphasis on the Marie Curie programme, to increase the mobility of researchers between Jordan and Europe.

Thematic Overview

Project Name	Start Date	End Date	Amount	Details
FRESH NRG (1)	01/03/2013	31/08/2016	2,499,445 Euro	<p>FP7-ENERGY CP - Collaborative project (generic)</p> <p>FRESH NRG will target efficiency of 60% at 250°C with a Linear Fresnel Collector (LFC) optimized for industrial use. Our integrated approach will design, implement and test disruptive innovations in 4 key parts of the value chain. A highly innovative sol-gel coated non evacuated receiver will target robustness, durability and performance (transmittance >96%, absorptivity >95%, emissivity 250°C <7%). To increase the annual yield, a LFC design with radically new geometry will target differentiation of the width of the primary mirrors and concentration factor >90 to limit heat losses. The objectives of the project are: - production of a cost-efficient biogas without using cereal crops - optimise the production of biogas per amount of biowaste and CO2 used - increase and facilitate the types of biowastes that can be utilised for biogas production</p> <p>To achieve the underlined objectives, research activities are to be carried out on the selecti ...</p> <p><i>Read more ...</i></p> <p>Partners:</p> <p>1) Universita Degli Studi Di Roma LA Sapienza , Italy 2) Aarhus Universitet , Denmark 3) Teknologisk Institut , Denmark ... plus 9 more partners.</p>
