

Short relation on the scientific stay at La Spezia (1-5 september 2014)

I was invited to the conference “Selected Problems in mathematical physics 2014” held in La Spezia. There, I gave an invited lecture on “Height fluctuations in interacting dimers”; this was based on results that I have obtained in collaboration with A. Giuliani (one of the local scientists in charge of my training during my Marie Curie fellowship in Roma Tre) and with V. Mastropietro.

Fabio Toninelli
fellow researcher
Marie Curie action DMCP

A handwritten signature in black ink that reads "Fabio Toninelli". The signature is written in a cursive style with a horizontal line underlining the name.
