SUN project at Nanotech France 2016

The EU-funded SUN project will be a keynote speaker at the Nanotech France 2016 conference that will take place in Paris, France, from 1 to 3 June.

1 June 2016 - 3 June 2016

Paris, France

Nanotech France 2016 brings together leading scientists, researchers, engineers, practitioners, technology developers and policy makers in nanotechnology to exchange information on their latest research progress and innovation.

Participants from the top international academic, government and private industry labs of different disciplines participate in Nanotech France 2016 to identify new technology trends, development tools, product opportunities, R&D collaborations, and commercialisation partners. The SUN project, as SUN (Sustainable Nanotechnologies) is the first EU-funded project that addresses the entire lifecycle of nanotechnologies to ensure holistic nanosafety evaluation, and incorporates the results into tools and guidelines for sustainable manufacturing, to be easily accessible by industries, regulators and other stakeholders.
