Workshop “Aggregators as enablers of prosumers participation in the energy market”

Aggregation service providers are central players for the participation of small consumers in the energy market.

 6 Novembre 2018 - 6 Novembre 2018

 Austria

© BestRES Project

On 6th November 2018, during the European Utility Week, the BestRES project will hold a workshop focused on the role of Energy Aggregators. The workshop will provide the participants with an overview of the business models and legal framework for aggregators to support the engagement of consumers and the integration of decentralised RES production units.
