Interactive Symposium on Research & Innovation for Connected and Automated Driving in Europe

The EU-funded ARCADE project will be organising a symposium in Helsinki, Finland, on 28-29 April 2020.

DIGITAL ECONOMY

📅 28 April 2020 - 29 April 2020

📍 Helsinki, Finland

This second Interactive Symposium on Research & Innovation for Connected and Automated Driving in Europe, or EUCAD2020, will take place at the Transport Research Arena conference (TRA2020). The event is organised by the ARCADE Coordination and Support Action, with the support of the European Commission Directorate-General for Research & Innovation (RTD) as well as the ERTRAC European Technology Platform.

The symposium will facilitate in-depth discussions on topics specifically related to research and innovation in connected and automated driving that are complementary to TRA2020 sessions. It targets public and private stakeholders in road transport who are interested in exchanging views on immediate next steps and future actions required for connected and automated mobility.
