The 22nd international meeting on organic geochemistry, 'IMOG 05', will take place in Seville, Spain, from 12 to 16 September.

Organised by the European Association of Organic Geochemists (EAOG), the 22nd IMOG is intended to cover the full range of research activities in organic geochemistry, with a wide spectrum of subjects involving geology, biogeochemistry, environmental geochemistry, chemical oceanography and hydrology, petroleum geochemistry (including natural gas), organic-rich rocks and soils.

Presentations will be in oral and poster formats. An even balance between bio- and petroleum- oriented topics will be maintained. For further information, please consult the following web address:
