

ECSEL Key Applications and Essential technologies (RIA)

An ECSEL Research and Innovation Action (RIA) primarily consists of activities aiming to establish new knowledge and/or to explore the feasibility of a new or improved technology, product, process, service or solution. For this purpose they may include basic and applied research, technology development and integration, testing and validation on a small-scale prototype in a laboratory or simulated environment.

The activities have their main thrust in the TRL2-5.

Full details of the topics open for proposals, terms and conditions for participation and funding budgets are available in the **ECSEL JU Work Plan 2016**.
