Report on FirEUrisk network establishment and register including End-Users Advisory Board, Scientific Forum and other EU projects.
Management and action plan for End-users involvement in pilots and demos

This report consists of an action plan of activities to promote the participation in the [DA], PS and EU demonstrations of the largest possible number of end users and stakeholders. The plan shall (1) Involve project committees; (2) Promote and allow remote participation for non-locals; (3) Enlarge regional/national/local stakeholders engagement; (4) establish a calendar of actions and materials for pre/during/post PS event; (5) Engage new stakeholders and evaluate the impact upon new communities (6) Complement WP6 dissemination plans.

Initial communication bundle

An initial communication bundle will be developed with a view to presenting the project, its goals, partners, activities planned and expected impact to a broad audience. This bundle will include multiformat communication material including a motion graphics animation, poster infographics and a leaflet. All these materials will incorporate a distinctive visual identity for the consortium and project developed for public exposure of the proposal and portray a memorable image of FirEUriSck.
