CORDIS fournit des liens vers les livrables publics et les publications des projets HORIZON.

Les liens vers les livrables et les publications des projets du 7e PC, ainsi que les liens vers certains types de résultats spécifiques tels que les jeux de données et les logiciels, sont récupérés dynamiquement sur [OpenAIRE](#) .

Livrables

Documents, reports (13)

[Online Journal on Mobility Cultures and Policies for Europe in the 21st Century](#)

The Online Journal will be published every four months 6 in total The Editorial Board will be composed by REBALANCE partners and external experts Open calls for papers will be regularly launched and a peerreview process will be carried out by REBALANCE partners

[Policy Roadmap and Policy Guide](#)

As an outcome of the backcasting exercise the policy roadmap consists in a set of concrete policy measures and their associated timelines targeting the proposed strategy of task 52 The policy roadmap is completed by a policy guide that develops the political process necessary to achieve the strategy Monitoring and assessment should also be covered

[The REBALANCE Mobility Culture and Value Framework](#)

This report will present the REBALANCE overall theoretical framework of values that contribute to shape peoples mobility mindsets and influence their behaviour and transport choices the mobility cultures The framework will consider the results of the generative dialogue with highlevel experts to review shared European values and needs post CV19 and will constitute the backbone for further analysis of mobility culture aspects

[The role of communication in shaping European mobility culture](#)

The report will present the analysis carried out in task 34 on how different forms of media social media and institutional communication have over time conveyed and presented mobility concepts and the way mobility values are channeled to citizens

[New concepts for regulatory policies](#)

The proposals of REBALANCE concerning societal regulatory policies will be based on a redefinition of the public interest of EU transport policies and the introduction of the manifesto

[The Manifesto](#)

The Manifesto will be a brief text of few pages with highly communicative value in English to be translated in at least the 5 European languages of the project partners Italian Spanish German French and Slovak It will include the key contributions from the Thinktank and results from WP3 WP4 and WP5

[Alternative narratives for the future of transport in Europe](#)

The report will present the results of task 42 on the alternative scenarios identified in consultation with experts and stakeholders They will be represented using visuals and storylines

[Critical analysis on current travel patterns and emerging mobility values](#)

This report summarizes the analysis of the state of the art on the definition of Europe-wide mobility values travellers value proposition of mobility across different transport modes Moreover it provides insights on changing concept of mobility values including the results of the dialogue with the experts Included in the report controversial questions deriving from literature and analysis will be identified to be discussed and weighted in further steps in the project

[Guidance for infrastructure and investment policies](#)

Transport needs long term investment in infrastructures and assessment methods This deliverable will provide guidance on transport infrastructure related policies Guidance will cover assessment methods and particularly propose improvement of the Cost-Benefit Analysis used in transport project assessment both ex ante and ex post

[Current Values behind the politics of Mobility: Critical Review](#)

This report will summarise the review carried out in task 33 of the evolution of policy goals and policy aims in European political documents and regulations and their relations with the public interest of transport and mobility policies in Europe

[The alternative mobility vision](#)

The report will present the Vision as resulting from the forwardlooking exercise to shape the future of European transport better reflecting the inner values and beliefs of Europeans considering the environmental boundaries of the planet and the wellbeing of the people

[Communication, Dissemination & Exploitation plan](#)

The plan will define the projects deliberative processes dissemination and exploitation resources and activities its target groups and the best practices for disseminating its outputs to stakeholders and the public at large It will then set out how this will be achieved ie what communication channels website social media events conferences and scientific publications and products leaflets posters publications stories multimedia resources will be used to accomplish these objectives

[Multi-sectorial trends and drivers shaping the future of European transport](#)

The report will showcase the results of task 41 in an easy to read way presenting the key factors that might influence the future of the European transport system

Websites, patent filings, videos etc. (1)

[New Mobility Cultures and Policies Hub- online platform](#)

The Hub will be an interactive and knowledgesharing platform in English It will be a useful resource for partner organizations stakeholders the media and the public at large It will publicize the projects aims and objectives and will showcase the results as they become available It will also be used to promote and host the projects online events and will establish synergies with other WPs
