End date

29 February 2024

Project description

**Boosting the demand for green energy skilled workforce**

One of the EU’s goals is to stimulate demand for sustainable energy skills in the building sector, and increase the number of skilled building professionals across the building design, operation and maintenance value chain. The EU-funded BUS-GoCircular project aims to tackle the challenges associated with stimulating this demand, and through capacity building boost the number of capable professionals in
The project will develop and implement a circular construction skills qualification framework specifically focusing on multifunctional green roofs, facades and interior elements. Specific activities concerning companies, real estate, homeowners and local authorities will be developed, including support towards legislative changes through circular green procurement and recognition of skills.

**Fields of science**

- engineering and technology
- environmental engineering
- energy and fuels
- renewable energy
- social sciences
- economics and business
- business and management
- employment

**Keywords**

- Circular skills
- Procurement
- Green roofs
- Multifunctional roofs
- Green façades
- Multifunctional façades
- Green interior elements

**Programme(s)**

- H2020-EU.3.3. - SOCIETAL CHALLENGES - Secure, clean and efficient energy
- H2020-EU.3.3.7. - Market uptake of energy innovation - building on Intelligent Energy Europe
- H2020-EU.3.3.1. - Reducing energy consumption and carbon footprint by smart and sustainable use

**Topic(s)**

- LC-SC3-B4E-2-2020 - Stimulating demand for sustainable energy skills in the building sector
