Project description

Key insights into enriched learning in authentic environments

The technological revolution resulted in new ways and interests in learning. The EU-funded FEWL project aims to enhance scientific excellence and research potential in the field of research on integrating formal education and workplace learning (WPL) for students in basic and secondary schools. Project work will introduce innovative approaches and methodologies in WPL research and provide new insights by applying the social ecology approach for the research in the field of integrating learning at school and at work. The methodological knowledge and experiences gained will be applied in planning future international research projects within the framework of the EU research agenda.
Fields of science

social sciences > educational sciences

Keywords

- ecology of learning
- student agency
- workplace learning
- learning in authentic environments
- individual learning paths
- teacher's professional development
- qualitative methods
- mixed methods
