Project description

The ABCs of democratic practices

The Anthropocene crisis, digitalisation, the pandemic, the Ukraine war, political polarisation and right-wing extremism, among others, are threatening the model of liberal democracy in Europe. Education, and especially education for democracy (EfD), will contribute to its defence and enhancement aligned with the values and principles of the UN’s 2030 Agenda and the Sustainable Development Goals. To reinforce the resilience of democracy, the EU-funded DEMOCRAT project aims to garner insights into the factors influencing the impact of EfD on democratic behaviour. It will elaborate, through a participatory approach, curricula based on a framework of responsible democratic competences, test them in open, local,
innovative learning projects and develop a toolbox to support transformative EfD practices in the EU and beyond.
