Project description

Connecting collaboration with innovation

True innovation requires collaboration and synergy. Success cannot be achieved by individual stakeholders acting alone. The EU-funded INNOV-8-2-CREATE project will bring together innovation stakeholders such as companies, investors, entrepreneurs and government organisations to foster synergistic efforts towards enhancing innovation efficiency, capability and collaboration in Europe. The project will leverage the strengths of each partner to identify and implement actions that will yield immediate results and long term impact. INNOV-8-2-CREATE will promote collaboration in innovation and facilitate knowledge exchange at the local, regional and international levels.
