Objective

The ERA TALENT is a 36 months coordination and support action with the aims to support the implementation of the new ERA Communication and to further develop the services provided by the existing EURAXESS network, with the objective to support the career development of researchers in Europe, expanding the career trajectories for them in academia, industry and business.

The ERA TALENT scope will be reached through the establishment of five thematic Hubs that are built as one-stop-shops where researchers find information and support services fed by the competences of the Centres in different fields and through six Community of Practices (CoP), where the Centres are grouped under specific themes to exchange experiences and information, needed to strengthen their...
The ERA TALENT project will support the EURAXESS Centres to deliver specialised talent management services to improve the employability and mobility schemes for talented researchers. Last but not least a more fostered culture of entrepreneurship opening new career trajectories for researchers in industry and business will be seek. The ERA TALENT project involves 34 BHOs Partners and it will be structured in 6 Work Packages: WP1 Project Management; WP2 Communication, Dissemination and Exploitation; WP3 Hubs Framework Co-creation and monitoring; WP4 Knowledge sharing for specialisation in the EURAXESS Network; WP5 Researchers orientation; WP6 Digitalisation and data.
