The European Open Science Cloud for Research Pilot Project.

Fact Sheet

Project Information

EOSCpilot
Grant agreement ID: 739563

Funded under
EXCELLENT SCIENCE - Research Infrastructures

Total cost
€ 9 953 067,50

EU contribution
€ 9 953 067,50

Coordinated by
UNITED KINGDOM RESEARCH AND INNOVATION
United Kingdom

EC signature date
14 December 2016

Start date
1 January 2017
End date
31 May 2019

Objective

The EOSCpilot project will support the first phase in the development of the European Open Science Cloud (EOSC) as described in the EC Communication on European Cloud Initiatives [2016].
• It will establish the governance framework for the EOSC and contribute to the development of European open science policy and best practice;
• It will develop a number of pilots that integrate services and infrastructures to
demonstrate interoperability in a number of scientific domains; and

• It will engage with a broad range of stakeholders, crossing borders and communities, to build the trust and skills required for adoption of an open approach to scientific research.

These actions will build on and leverage already available resources and capabilities from research infrastructure and e-infrastructure organisations to maximise their use across the research community.

The EOSCpilot project will address some of the key reasons why European research is not yet fully tapping into the potential of data. In particular, it will:

• reduce fragmentation between data infrastructures by working across scientific and economic domains, countries and governance models, and

• improve interoperability between data infrastructures by demonstrating how data and resources can be shared even when they are large and complex and in varied formats,

In this way, the EOSC pilot project will improve the ability to reuse data resources and provide an important step towards building a dependable open-data research environment where data from publicly funded research is always open and there are clear incentives and rewards for the sharing of data and resources.

Fields of science

social sciences > political sciences > political policies > public policies
natural sciences > computer and information sciences > data science
social sciences > sociology > governance
humanities > arts
natural sciences > biological sciences > ecology > ecosystems

Keywords

Open Science  Open Data  FAIR data  Interoperability
Research Infrastructure  e-Infrastructure  Sharing

Programme(s)

H2020-EU.1.4. - EXCELLENT SCIENCE - Research Infrastructures
H2020-EU.1.4.1.1. - Developing new world-class research infrastructures
