Hybrid Radio everywhere for everyone

Fact Sheet

Project Information

HRadio

Grant agreement ID: 761813

DOI
10.3030/761813

Funded under
INDUSTRIAL LEADERSHIP - Leadership in enabling and industrial technologies - Information and Communication Technologies (ICT)

Total cost
€ 3 248 600,31

EU contribution
€ 2 953 370,88

Coordinated by
INTERUNIVERSITAIR MICRO-ELECTRONICA CENTRUM
Belgium

EC signature date
14 June 2017

Start date
1 September 2017

End date
30 April 2020

Project description

Boosting radio's popularity among young people

In a world where smartphones and music streaming platforms reign supreme, traditional radio faces an existential challenge. Despite its enduring popularity, radio's listenership, especially among the younger demographic, is steadily declining. The rise of competing services and a lack of attractive features have left radio struggling to keep up with the demands of today's tech-savvy generation. With this in mind, the EU-funded HRadio project aims to bridge the gap between radio and the digital era. By leveraging the power of hybrid technology, the project will seamlessly integrate cost-effective broadcast distribution with innovative online features. Personalised services, intuitive functionalities, and enhanced user engagement are just the beginning of what HRadio has in store.

Fields of science

humanities  >  arts  >  modern and contemporary art  >  radio and television
natural sciences  >  computer and information sciences  >  software
engineering and technology  >  electrical engineering, electronic engineering, information engineering  >  information engineering  >  telecommunications  >  mobile phones

Programme(s)

H2020-EU.2.1.1. - INDUSTRIAL LEADERSHIP - Leadership in enabling and industrial technologies - Information and Communication Technologies (ICT)  >  MAIN PROGRAMME

Topic(s)
