Organ on Chip in Development

Fact Sheet

Project information

**ORCHID**

Grant agreement ID: 766884

Project website

Status

Closed project

Start date 1 October 2017  End date 30 September 2019

Funded under: H2020-EU.1.2.1.

Overall budget: € 520 472,50

EU contribution € 520 472,50

Coordinated by:

ACADEMISCH ZIEKENHUIS LEIDEN

Netherlands

Objective

Organ-on-chip technology will revolutionize the healthcare domain by offering new and ground breaking solutions to different industries and especially for regenerative medicine and medication.

ORgan-on-Chip In Development (ORCHID) will create a roadmap for organ-on-chip technology and the framework to build a network of relevant stakeholders. ORCHID will achieve this through 5 objectives: (i) evaluation of the technology (state of the art and unmet needs), (ii) identification of ethical issues, establishing standards and identifying measures for regulatory implementation, (iii) analysis of economic and societal impact, training and education, (iv) developing a roadmap which will guide the required R&D efforts and (v) raising awareness and building the ecosystem for organ-on-chip technology through a digital reference platform.

ORCHID will have a broad impact: it will facilitate drug development, contribute significantly to reducing animal experiments and help in developing personalized medicine. ORCHID will achieve these goals by providing a framework to the main stakeholders, bringing together key players and raising awareness on organ-on-chip technology throughout Europe. The digital platform will gather all information on existing and new initiatives in the field. In this way ORCHID as a whole will secure and reinforce Europe’s leadership on organ-on-chip.

The consortium is composed of the main contributors to the field who are all very experienced and who will strongly collaborate with each other. Leiden University Medical Centrum (LUMC) will lead the consortium, the Institute for human Organ and Disease model (hDMT) will focus on the strategy and the roadmap,
Fraunhofer IGB on impact assessment, CEA Leti on eco-system development and the digital platform, IMEC on the ethical aspects, regulation and standardization and the University of Zaragoza will lead dissemination. ORCHID will install an Advisory Board composed of complementary specialists in the field.

Field of Science

/medical and health sciences/basic medicine/pharmacology and pharmacy/pharmaceutical drug

Programme(s)

H2020-EU.1.2.1. - FET Open

Topic(s)

FETOPEN-03-2017 - FET-Open Coordination and Support Actions

Call for proposal
