Proyecto cerrado

Fecha de la firma de la CE

10 Noviembre 2017

Fecha de inicio

1 Marzo 2018

Fecha de
finalización

30 Septiembre 2020

Financiado con arreglo a

EXCELLENT SCIENCE - Research Infrastructures

Coste total

€ 3 584 141,50

Aportación de la
UE

€ 3 500 000,00

Coordinado por

TRUST-IT SERVICES LIMITED

 United Kingdom

CORDIS proporciona enlaces a los documentos públicos y las publicaciones de los proyectos de los programas marco HORIZONTE.

Los enlaces a los documentos y las publicaciones de los proyectos del Séptimo Programa Marco, así como los enlaces a algunos tipos de resultados específicos, como conjuntos de datos y «software», se obtienen dinámicamente de [OpenAIRE](#) .

Resultado final

[Interim Impact Report on Support for EU participation in RDA](#)

Outlines impact and results of EU participation to the RDA processes, through WG & IG support, workshops, plenary support & the early career programme.

[Communication, Marketing & Stakeholders Engagement plan, 2nd version](#)

Outlines stakeholder groups and targeted engagement activities. Monitoring and outcomes of engagement activities performed in T5.2 and will be documented on marketing and communication activities.

[RDA Results, Adoption & Take-Up report](#)

The first of two reports that tracks precisely what adoption take-up has been achieved within RDA Europe 4.0 within the communities, existing & new.

[Updated RDA global communications strategy](#)

Revision of existing strategy to reflect revised contributions from RDA Europe 4.0.

[Interim ICT technical specifications](#)

The first interim report tracks and reports the RDA technical specifications referenced in public procurement.

[Final Sustainability Strategy](#)

The final strategy of the joint & individual exploitation plan for RDA Europe 4.0 including a business plan going forward post project.

[Final Impact Report on Support for EU participation in RDA](#)

Outlines the final results of impact of EU participation to the RDA processes, through WG & IG support, workshops, plenary support & the early career programme. A section of this report will cover the success and achievements of the ambassador programme, specifying how the different scientific domain communities have exploited the Programme, and how the appointed technical experts have made use of their contributions as part of their related work activities.

[Interim Impact Assessment Report](#)

This will be the first of two reports that tracks the impact assessment achieved through direct interactions such as f2f meetings, indirect interactions (ie: tools, services in this case the adoption of the RDA outputs, and financial interactions ie: potential stakeholders engaging in economic exchange with researchers, research contracts or special funding etc.).

[Report on RDA integration with other European initiatives](#)

This report will describe the achievements of T3.4 – both those already realised at this point and those underway.

[Final RDA Results, Adoption & Take-Up report](#)

The final of two reports that tracks the adoption take-up, that has been achieved within RDA Europe 4.0 within the communities, existing & new.

[RDA Europe global communications strategy](#)

Summary of activities performed, achievements and impact of RDA Europe 4.0 contribution to the global communication strategy.

[Final Communication, Marketing & Stakeholders Engagement report](#)

This is the final report that tracks stakeholder groups and targeted engagement activities. Monitoring and outcomes of engagement activities performed in T5.2 and will be documented on marketing and communication activities.

[Final report Supporting EU participation to RDA global operations & governance](#)

Outlines over the remaining 18-month period of the project the precise procedures and dialogue between RDA Europe 4.0 & RDA global with related impact. All indications, updates on the web platform will be incorporated in this report to show the cross-synergy between RDA Europe 4.0 & RDA Global.

[Interim Sustainability Strategy](#)

The first iteration of a strategy of the joint & individual exploitation plan for RDA Europe 4.0 including a business plan based on the motivational mechanisms identified.

[Coordination of National Nodes Framework](#)

The report lists the efforts and main achievements of the European Nodes (including measurable indicators, such as: feedback on the scientific, infrastructural and training work performed by the node of pertinence; growth rate of national RDA members in reporting period; countable engagement success stories ascribed to the node) working together collaboratively with RDA Europe 4.0 project, with national contributions to deliver the EU's contribution to RDA's mission. This activity will dedicate a specific section that introduces the successes of putting RDA on the radar. In addition, the report will describe efforts and main achievements on integration and creating synergies with other European initiatives (EOSC, ESFRI, etc.).

[Final ICT technical specifications & contribution to standards](#)

The final report delivers the final results of the RDA technical specifications referenced in public procurement.

[Communication, Marketing & Stakeholders Engagement plan](#)

Outlines stakeholder groups and targeted engagement activities. Monitoring and outcomes of engagement activities performed in T5.2 and will be documented on marketing and communication activities.

[Final Impact Assessment Report](#)

This will be the second of two reports that tracks the impact assessment of the overall project.

[Supporting EU participation to RDA global operations & governance report](#)

Outlines the precise procedures and dialogue between RDA Europe 4.0 & RDA global with related impact. All indications, updates on the web platform will be incorporated in this report to show the cross-synergy between RDA Europe 4.0 & RDA Global.

[Cascading Grant Report Management](#)

Summarises the procedures of the cascading grants management as open calls, describing how the funds have been distributed to the appropriate recipients of the open calls.

Open Research Data Pilot (1)

[Data Management Plan](#)

The document outlines what data will be collected and generated and how it will be handled during the project lifetime and after, detailing the policy, methodology and standards adopted for data collection and generation, curation, use, sharing and preservation.
