Recommendations for Services in a FAIR data ecosystem

Report by FAIRsFAIR, RDA Europe, OpenAIRE, EOSC-hub, FREYA¹

Introduction

This report highlights common challenges and priorities, and proposes a set of initial recommendations on how existing data infrastructures can evolve and collaborate to provide services that support the implementation of the FAIR data principles, in particular in the context of building the European Open Science Cloud (EOSC). The report is an output of three workshops² designed to explore, discuss and formulate such recommendations and is aimed at stakeholders in the scholarly world and particularly the EOSC Governance.

Gathering recommendations from the community

The workshop series was organised as three half-day events held in April and September 2019, for different audiences. The workshops examined services in the scholarly and
