CORDIS oferuje możliwość skorzystania z odnośników do publicznie dostępnych publikacji i rezultatów projektów realizowanych w ramach programów ramowych HORYZONT.

Odnośniki do rezultatów i publikacji związanych z poszczególnymi projektami 7PR, a także odnośniki do niektórych konkretnych kategorii wyników, takich jak zbiory danych i oprogramowanie, są dynamicznie pobierane z systemu [OpenAIRE](#) .

Rezultaty

Documents, reports (13)

[Mid term recruitment reportt](#)

When half of the primary health care centers have been recruited to the study

[SCALA training package](#)

PHC training package, implementable across three municipalities.

[Health Economics assessment](#)

Full report of the economic analyses

[Communication plan](#)

Detailed Stakeholder Engagement, Communication, Dissemination, and Exploitation Plan

[Report on status of posting results](#)

Report that states when and where the results have been posted

[First study subject approvals package](#)

Package includes final version of study protocol, study registration number, statements of approval by ethics committees in Colombia, Mexico and Peru, and one EU country, Spain informed consent forms, information forms for participants, and confirmation by the authorised Data Protection Officer of Maastricht University that handling of personal data and exchange between EU/Non-EU countries is correctly undertaken following EU and national laws.

[SCALA Intervention package](#)

Health system intervention for AUD and comorbid depression, scalable across three municipalities

[SCALA protocol](#)

Detailed protocol for full implementation and scale-up across three municipalities.

[Municipal action plans](#)

Report of municipal action plans to improve alcohol health literacy and prevent and manage AUDs in support of PHC-based SCALA package.

[Process outcomes of scale-up](#)

Full report of the process evaluation of the SCALA project

[Impact outcomes of scale-up](#)

Report of the outcome results

[SCALA framework](#)

SCALA Validated Framework and Strategy for going to scale

[Contextual analyses](#)

Full report of the contextual cultural political and economic factors that might influence the outcome results

Open Research Data Pilot (1)

[Data management and analysis plan](#)

The Data Management plan will follow the structure of the Horizon 2020 FAIR Data Management Plan (DMP) template, with headings on Data summary, FAIR Data, Making data findable, Making data openly accessible, Making data interoperable, Increase data re-use, Allocation of resources, and Data security. The Data Management Plan will, in addition include the data analysis plans.
