MERLIN

Grant agreement ID: 780460

Project website

Status
Closed project

Start date
1 December 2017

End date
29 February 2020

Funded under:
H2020-EU.2.1.1.

Overall budget:
€ 996 137,50

EU contribution
€ 996 137,50

Coordinated by:
UNIVERSIDAD POLITECNICA DE CARTAGENA
Spain

Objective

MERLIN aims to support ICT researchers, SMEs and startups across to realise the full potential and impact of their research and development outputs by crafting them into innovations and achieving market validation using modern needs-first, market-led methodologies like Business Model Canvas, Customer Discovery, Lean Hardware, etc.

The project will provide training, networking and follow-on support through 43 practical workshops, 4 webinars (on SME growth and PPP business models), 5 international conference workshops and 8 meetups with potential customers and commercial partners.

MERLIN will have over 1250 attendees at in-person workshops and meetups across the four principal nodes of Madrid (ES), Vilnius (LT), Poznań (PL) and Cambridge (UK) and the secondary nodes of Berlin (DE), Warsaw (PL), Tallinn (EE), Bucharest (RO), international webinars and international ICT conferences in Europe. For sustainability, and to increase the participants’ success in bringing to market their innovation, MERLIN will integrate participants with existing national (e.g. Innovate UK, Enterprise Ireland, CDTI) and European initiatives (Startup Europe, ERDF, EFSI, etc.) designed to support early entrepreneurship, product development, market access, seed financing and microfinancing for continued support on their journey to market validation and company growth. The project will also identify and promote high-potential innovators through attendance at Startup Europe events to access other European startup ecosystems, entrepreneurs, investors and accelerators.

These activities will see over 160 new business model canvases developed, 1040 individual 1-on-1s with
potential commercial customers, serial entrepreneurs and business angels, 250 applications to regional, national and international support actions and the creation of 30 new ventures in the lifetime of the project with an anticipated further 60-100 in the following 3 years' post project, creating over 1200 jobs in the medium-term.
