Project description

Future global governance priorities

The 2016 EU Global Strategy defines trade and development, and security and climate change policies as the chief priorities of global governance. Migration and global finance represent key priorities as well. The EU-funded GLOBE project, which brings together a consortium of high-level academic experts and European and international scholars, will identify the barriers that prevent efficient and coordinated global governance in a multipolar world. The project’s 11 work packages will be divided into 2 clusters. The first cluster will focus on the problems individually,
