Healthcare- and pharma-economic models in support of the International Consortium for Personalised Medicine

Fact Sheet

Project Information

**HEcoPerMed**
Grant agreement ID: 824997

**Funded under**
SOCIETAL CHALLENGES - Health, demographic change and well-being

**Total cost**
€ 1,998,437,50

**EU contribution**
€ 1,998,437,50

**Coordination by**
AIT AUSTRIAN INSTITUTE OF TECHNOLOGY GMBH

**Start date**
1 January 2019

**End date**
30 June 2022

**DOI**
10.3030/824997

Closed project

Project description

**Economic modelling of personalised medicine**

Personalised medicine promises a more efficient and effective way to cure diseases by matching patients and treatment based on the characteristics of the patient. The EU-funded HEcoPerMed project will develop economic models for the evaluation of treatments made possible through innovations. It will identify funding and reimbursement mechanisms that provide financial incentives for the rapid development and uptake of such innovations. The project will provide guidance on high-quality methodological approaches for model-based economic evaluations. In
three case studies, it will apply state-of-the-art economic modelling to demonstrate practical and methodological issues in evaluating personalised medicine innovations. Future scenarios will be formulated, considering the trends and drivers as well as the challenges and benefits of personalised medicine.

**Fields of science**

medical and health sciences  >  health sciences  >  personalized medicine

**Programme(s)**

H2020-EU.3.1. - SOCIETAL CHALLENGES - Health, demographic change and well-being

H2020-EU.3.1.6. - Health care provision and integrated care

**Topic(s)**

**Call for proposal**

H2020-SC1-BHC-2018-2020

See other projects for this call

**Sub call**

H2020-SC1-2018-Single-Stage-RTD

**Funding Scheme**

CSA - Coordination and support action

**Coordinator**
