Closed project

EC signature date
4 May 2020

Funded under
Secure societies - Protecting freedom and security of Europe and its citizens

Total cost
€ 6 017 950,00

EU contribution
€ 4 995 812,50

Coordinated by
TENFORCE
Belgium

Start date
1 September 2020

End date
31 August 2023

Project description

New technologies can help protect data flows

Data is an essential resource for economic growth, competitiveness, innovation, job creation and societal progress in general. Common European data spaces will ensure that more data becomes available for use in the economy and society, while keeping companies and individuals who generate the data in control. The EU-funded TRAPEZE project will develop technologies to empower citizens to actively
contribute to the cyber resilience of the common European data space. It will provide the public with the necessary tools and information to manage their security and privacy. It will also create technologies to enforce the integrity and non-repudiation of citizens’ data usage policies and processing across data sources. Overall, the project will carve out a path to put cutting-edge technologies like blockchain and linked data to practical use.

Fields of science

natural sciences > computer and information sciences > computer security > data protection
natural sciences > computer and information sciences > data science > big data
natural sciences > computer and information sciences > computer security > cryptography

Keywords

transparency  compliance  privacy-enhancing technologies  linked data

Programme(s)

H2020-EU.3.7. - Secure societies - Protecting freedom and security of Europe and its citizens

H2020-EU.3.7.6. - Ensure privacy and freedom, including in the Internet and enhance the societal, legal and ethical understanding of all areas of security, risk and management

H2020-EU.3.7.4. - Improve cyber security
