Sustainable development of urban historical areas through an active integration within towns (SUIT)

Fact Sheet

Project Information

SUIT
Grant agreement ID: EVK4-CT-2000-00017
Funded under FP5-EESD
Start date: 1 December 2000
End date: 31 January 2004
Overall budget: € 1 270 363
EU contribution: € 1 199 638
Coordinator: UNIVERSITE DE LIEGE, Belgium

Objective

The project aims at establishing a flexible and consistent Environmental Assessment methodology to assist with the conservation of urban fragment heritage. This methodology will be designed for use by municipalities and local authorities to help them to assess the suitability of new urban developments that will promote sustainable exploitation of urban and architectural cultural heritage. The methodology will also help to match existing urban fragments with current socio-economic requirements, through an active integration of this heritage within new development projects.
