Investigating idiolectal performance: towards a methodology of forensic authorship attribution

Fact Sheet

Project Information

KREDENS KRZYSZTOF

Grant agreement ID: HPMF-CT-2002-02041

Project closed

Start date

15 October 2002

End date

14 October 2004

Funded under

Programme for research, technological development and demonstration on "Improving the human research potential and the socio-economic knowledge base" (1998-2002)

Total cost

€ 107 272,00

EU contribution

€ 107 272,00

Coordinated by

UNIVERSITY OF BIRMINGHAM

 United Kingdom

Objective

The proposal will provide empirical data to be used in the creation of a methodological model for forensic authorship attribution. The data will be used

- 1) to identify individual stylistic features invariant over time and independent of interaction topic,
- 2) to describe patterns of idiolectal performance over time within a homogeneous

group of informants, And
3) to identify relevant implications for forensic authorship attribution.
