European macromolecular crystallography infrastructure network

Fact Sheet

Project Information

MAX-INF

Grant agreement ID: HPRI-CT-2000-40021

[Project website](#) 

Project closed

Start date

1 December 2000

End date

30 November 2004

Funded under

Programme for research, technological development and demonstration on "Improving the human research potential and the socio-economic knowledge base" (1998-2002)

Total cost

€ 616 000,00

EU contribution

€ 616 000,00

Coordinated by

COUNCIL FOR THE CENTRAL
LABORATORY OF THE
RESEARCH COUNCILS

 United Kingdom

Objective

Macromolecular X-ray crystallography can only flourish in Europe if the means and methods that are being developed at our centres of excellence, are disseminated efficiently. Here we propose to promote this process, and to facilitate access to research infrastructures, by organising four different types of meetings in an EU spanning Network.:

1) Schools aimed at bringing together young scientists are an excellent instrument for

- spreading expert knowledge and creating new, informal networks between institutes throughout the EU;
- 2) Teaching workshops will allow young scientists to be coached by specialists in the latest techniques and methods in a hands-on environment, and form a vital addition to the larger-scale schools;
 - 3) Integration workshops promote the development of new ideas and procedures by bringing together experts in the field;
 - 4) These activities will be organised and directed in co-ordination meetings of participants of the proposed Network.

Programme(s)

[FP5-HUMAN POTENTIAL - Programme for research, technological development and demonstration on "Improving the human research potential and the socio-economic knowledge base" \(1998-2002\)](#)

Topic(s)

[1.4.1.-2. - Access to Research Infrastructures](#)
