# International conference on transmissible spongiform encephalopathies

## Fact Sheet

### Project Information

#### TSE CONFERENCE

Grant agreement ID: QLG1-CT-2001-30045

Project closed

#### Start date

1 January 2002

#### End date

31 August 2003

#### Funded under

Specific Programme for research, technological development and demonstration on "Quality of life and management of living resources", 1998-2002

#### Total cost

€ 69 780,00

#### EU contribution

€ 69 780,00

#### Coordinated by

INSTITUTE FOR ANIMAL  
HEALTH

 United Kingdom

## Objective

We propose to organise a conference on transmissible spongiform encephalopathies (TSEs), to be held over three days in September 2002 in Edinburgh. The objectives are to disseminate recent key findings in the areas of pathogenesis, diagnostics, therapeutics and epidemiology, and to provide a platform to update workers in the field on TSE research. Many of the leading researchers in this field have provisionally agreed to present their current work. We intend to provide bound copies of abstracts

which will provide a useful source of current research. Edinburgh is a major focus of TSE research and has many international collaborations, particularly within the EC .

## Fields of science (EuroSciVoc)

[medical and health sciences](#) > [health sciences](#) > [public health](#) > [epidemiology](#)

## Programme(s)

[FP5-LIFE QUALITY - Specific Programme for research, technological development and demonstration on "Quality of life and management of living resources", 1998-2002](#)

## Topic(s)

[1.1.1.-7. - Chronic and degenerative diseases, cancer, diabetes, cardiovascular diseases and rare diseases](#)

## Call for proposal
